Currently, market value is pegged at USD 214.9 Million.

Woven carpets and rugs are floor coverings made by interweaving different yarns or fibers on a loom. They are typically made from natural materials such as wool, cotton, jute, and silk, but can also be made from synthetic materials such as nylon, polyester, and olefin. Woven carpets and rugs are popular for their durability, longevity, and the wide range of designs and colors available. They can be used in residential and commercial settings and are often chosen for their aesthetic appeal and ability to enhance the look and feel of a space. The woven carpet and rug market refers to the industry that produces, distributes, and sells woven carpets and rugs to consumers, businesses, and other organizations. It includes manufacturers, wholesalers, retailers, and other service providers involved in the production and distribution of woven carpets and rugs.

#### Market Drivers

- Growing demand for interior decoration: With the increasing demand for home décor and interior designing, there is a rise in demand for woven carpets and rugs. These products not only add aesthetic value but also offer comfort and warmth to homes, offices, and other commercial spaces.

#### Market Trend

- Sustainable materials: There is a growing demand for sustainable and eco-friendly materials in the woven carpet and rug market. Many manufacturers are now using recycled materials, such as plastic bottles, to make their products.

#### Opportunities

- Increasing demand for eco-friendly and sustainable products: With the growing awareness of environmental issues and the importance of sustainable living, there is an increasing demand for eco-friendly and sustainable products. This presents an opportunity for manufacturers of woven carpets and rugs to produce products using natural materials such as wool, bamboo, and cotton, which are renewable and biodegradable.
