recognized leader in mobile payment devices, payment terminals and unattended solutions, proudly announces the launch of its cutting-edge [QuickSale](#) Go mobile payments product line, delivering a broader scope of mobile payments technology deployment.

The QuickSale Go line introduces three distinct [mPOS](#) devices meticulously engineered to address diverse payment acceptance requirements:

1. QuickSale Go Reader: This sleek and compact device delivers a seamless and intuitive mPOS experience, perfectly suited for businesses of all sizes. Its transformative capability empowers any smartphone to become a robust payments hub.
2. QuickSale Go PIN Pad: By incorporating advanced functionality for secure PIN entry, this reader establishes a new benchmark for versatility and reliability in mobile payments. Its seamless integration with any smartphone enables acceptance of various payment types, setting a new standard for convenience and flexibility.
3. QuickSale Go-Tab: Engineered as a ruggedized tablet with integrated payments, this unique payments powerhouse delivers unparalleled durability and performance, ideal for businesses operating in demanding environments.

"We are excited to unveil the QuickSale Go mobile payments line, a testament to our unwavering commitment to innovation and excellence," said Mr. Paul Sabella, CEO of Charge Anywhere. "With these groundbreaking mPOS readers, we empower businesses to streamline payment processing and elevate the customer experience like never before."

By introducing the QuickSale Go line, Charge Anywhere addresses a critical need in the market for low-cost, yet high-quality mobile readers. These readers strike an ideal balance between affordability, functionality, and user-friendliness, rendering them highly sought-after by ISOs, VARs, acquirers, and merchants alike.
