Definition:

A Business Liquidation Service is a professional service that specializes in helping businesses wind down their operations and sell off their assets when they are closing down or going out of business. This process involves converting the assets of a business, such as inventory, equipment, real estate, and intellectual property, into cash or other forms of value.

Market Trends:

□Growth of specialized liquidation firms offering tailored solutions for different industries.

Market Drivers:

□Retirement or succession planning prompting business owners to liquidate assets.

□Desire to streamline operations and focus on core business activities driving liquidation of non-core assets.

Market Opportunities:

□Expansion into emerging markets with growing demand for asset liquidation services.
