For a child diagnosed with a serious illness, every day is a struggle. At Ride2Revive's Annual Track Event, the team gives them an experience they will never forget and a lasting positive effect on the entire family.

Ride2Revive was founded in 2011, by Brett & Brooke David, siblings and owners of [Prestige Imports](#) | [Lamborghini MIAMI](#). In 2007, Brett and Brooke lost their father due to heart disease. As they continue their father's legacy in the automobile industry, Brett & Brooke want to set an example for their generation to "pay it forward". Being young adults themselves, they decided to focus on helping children with life-threatening diseases. They soon realized that all of their monetary donations were not affecting the children personally.

Once a child is diagnosed with a life threatening disease, every day is a new struggle for them and their families. They want to share their world of exotic supercars with these children that need fun things to do. In addition to the Track Event, R2R invites patients and their families to their showroom to enjoy fun rides, as well as visiting hospitals and homebound children with surprise visits tailored to their individual needs and wishes. These one-on-one visits capture the magic of the track events in a single afternoon. The non profit's mission is to provide "Miles of Smiles on the Road to Recovery" with memorable, adrenaline-filled experiences, meant to distract them from their health related struggle and revitalize their senses.

Ride2Revive is a non-profit organization exempt under Section 501(c)(3) of the Internal Revenue Code. Federal ID# 47-5518273.
