Introducing the New Jugbow DT-68 Dog Training Collar!

The [Jugbow Dog Training Collar DT-68](#) is designed with state-of-the-art technology to offer a variety of innovative features for effective and humane dog training. With four humane modes - beep, vibration, safe shock, and Shock Boost - the DT-68 provides versatile training options

suitable for dogs of all sizes and temperaments.

The training collar is suitable for dogs of all sizes, with a neck circumference range from 7.8 to 24.4 inches and weights from 15 to 120 pounds, making it suitable for both large and small dogs.

Efficient and Humane Training

The Jugbow Dog Training Collar DT-68 allows for efficient and humane training, promoting positive behavior and strengthening the bond between dog and owner. Its 4200-foot range and dual-channel support enable flexible training sessions in various environments, while its waterproof design ensures durability in any weather conditions. Quick USB charging ensures

minimal downtime, maximizing quality training time with your furry friend.

Support for two channels allows a single remote to handle two receiver collars, facilitating simultaneous training of two dogs. Additionally, it features a memory function that eliminates the need to reset settings.

Advanced Technology for Effective Training

The collar utilizes advanced technology to deliver effective training results while prioritizing the well-being of pets. The Shock Boost feature provides a gentle yet effective stimulus when needed, while the beep and vibration modes offer non-invasive cues for behavior reinforcement. With the DT-68, pet owners can train with confidence, backed by a lifetime warranty.
