One customer said, "Mike was very courteous and nice. He arrived at work immediately. He fixed my backyard garden tap which had been leaking for a long time. I thought it would be a huge job. But in no time Mike cut it off and soldered it. Then he figured out and replaced an aftermarket piece that was causing a slow leak in my toilet. Thanks for water savings in the future! Well done!"

"I used Cirton Plumbing Services to disconnect a kitchen faucet and sink to have a new countertop installed. Once the countertop was installed, Cirton returned and hooked up a new faucet and sink. The estimate provided was bang on, no surprises! Mike arrived on time for both appointments. The faucet that I had purchased had a defective nut. But luckily Mike had a spare that saved me from the hassle of exchanging the faucet. Extremely satisfied with the service provided. I will not hesitate to contact him in the future for any of my plumbing needs." expressed his satisfied customer.
