

# Julien Dubuque International Film Festival 2024 Announces Its Slate of World Premieres

LOS ANGELES, CA, UNITED STATES, April 23, 2024 /EINPresswire.com/ -- From April 24 - April 28 2024 the Julien Dubuque International Film Festival is proud to unveil a slate of nineteen world premieres, including three must-see feature films that promise to captivate audiences with compelling narratives of intrigue, healing, and personal discovery.

## Friday, April 26, 2024 Highlights

**CAMERA**: starring Beau Bridges and directed by Jay Silverman, promises to be a festival highlight. CAMERA is the

heartwarming story of loss, hope, and healing that follows Oscar, a 9-year-old boy who cannot speak—who has just moved with his widowed mom to a struggling fishing town. Picked on and bullied, nobody realizes that Oscar sees great beauty where others only see despair. Nobody, that is, until a broken camera brings him together with Eric, an eccentric old repairman, and an unlikely friendship develops. Under Eric's mentorship, Oscar finds his voice through photography, and in doing so, heals a wounded community

**REMOTE**: This edge-of-your-seat thriller takes audiences into the heart of darkness that lurks beneath the surface of a small town. As a TV reporter and a photographer dig deeper into a murder case, they unravel a web of secrets that could cost them their lives.

**A TIME APART**: This drama feature explores the complexities of love and the difficult choices life presents. 'A TIME APART' follows Alyssa as she navigates the tumultuous emotions of ending her marriage, leading her to question her decisions and her future.
