He said, "I am quite happy with the original roofing job...however I determined after the first winter that I needed some 'ice breakers' installed along the back roof. Snow was 'avalanching' off the back. Contacted pro roofing early in the spring the next year to request it be done Despite assurances I was 'on their list' & it would be done no one ever showed up. Immediately, received a call with apologies. Representative advised ice breakers being ordered & copied email of order to me as confirmation, updating to 4 stars pending installation. Then, ice breakers were installed within days of 1st update. Very happy."
