

Human Focus International's Ground-breaking Research Shortlisted for Prestigious IIRSM Award

Human Focus International's Research, "Transforming Learning From Accident Investigations with Cognitive Insights," Shortlisted for Prestigious IIRSM Award

REIGATE, SURREY, ENGLAND, May 7, 2024 /EINPresswire.com/ -- Human Focus International Ltd is excited to announce that its pioneering research paper, "Crystallising Cognitive Diamonds in a Sugar Factory: How Cognitive Task Analysis (CTA) Enhances

Learning from Serious Accidents," has been shortlisted for the "Most Impactful Risk Research Project" at the esteemed IIRSM 'Risk Excellence Awards'. The ceremony will take place on May 23, 2024, at Church House, London.

Developed by Ian Pemberton, a Chartered Ergonomist, and Dominic Mooney, Head of Health and Safety at British Sugar, this research introduces an innovative integration of cognitive task analysis with traditional accident investigation techniques. Ian Pemberton explains, "This research is transforming learning from accident investigations with cognitive insights, enhancing our ability to prevent serious industrial accidents."

Project Impact and Recognition:

Ian Pemberton will be presenting the research findings at two prestigious international conferences: the [Chartered Institute of Ergonomics and Human Factors \(CIEHF\) Conference](#) from April 22-24, 2024, in Kenilworth, UK, and the 17th International Conference on [Naturalistic Decision Making](#) from July 1-5, 2024, at Auckland University of Technology, Auckland, New Zealand. Additionally, the research will be published in a special 2024 issue of the Journal of Cognitive Engineering and Decision Making.
