

# Industrial Robots Market Size to Worth USD 108.48 billion by 2030 | With a 9.6 % CAGR by Exactitude Consultancy

*The Exactitude Consultancy Industrial Robots Market Report – Size, Trends, And Global Forecast 2024-2030*

LUTON, BEDFORDSHIRE, UNITED KINGDOM, April 24, 2024

/EINPresswire.com/ -- The Global [Industrial Robots](#) Market research report published by Exactitude Constancy reveals the current outlook of the global and key regions from the following perspectives: Key players, countries, product types, and end industries. The report studies the top companies in the global market and divides the market into several parameters.

Industrial Robots

This Industrial Robots Market research report pinpoints the industry's competitive landscape to understand the international competition. This report study explains the expected growth of the global market for the upcoming years from 2024 to 2030. This research report is accumulated based on static and dynamic perspectives on business.

“

Growing demand for industrial robots fueled by automation needs, efficiency enhancement, cost reduction, and safety improvements in manufacturing.”

*Exactitude Consultancy*

The global industrial robot's market size is estimated to be valued at USD 47.54 billion in 2023 and is projected to reach USD 108.48 billion by 2030, recording a CAGR of 9.6%.

(\*The report includes data on the number of industrial robots installed, the number of robots in use, the number of robots in stock, the number of robots in the pipeline, and the number of robots in the backlog.)

The report also includes data on the number of industrial robots installed, the number of robots in use, the number of robots in stock, the number of robots in the pipeline, and the number of robots in the backlog:

ABB, Yaskawa, Fanuc, Kuka, Mitsubishi Electric, Kawasaki Heavy Industries, Denso, Nachi-Fujikoshi, Seiko Epson and Dürr.

The report also includes data on the number of industrial robots installed:

The Industrial Robots market report has segmentation to increase accuracy and make data collection easier. A category, a distinguishing factor in an industry, is the type of distribution channel, application, product or service. This level of segmentation makes it easier to analyze and understand the market. At the same time, what types of consumers become customers of this industry are highlighted. Regarding distribution channels, the market report looks at the different distribution technologies for a product or service.

The report also includes data on the number of industrial robots installed, the number of robots in use, the number of robots in stock, the number of robots in the pipeline, and the number of robots in the backlog:

Traditional Industrial Robots

Articulated Robots

Scara Robots

Parallel/Delta Robots

Cartesian/Linear/Gantry Robots

The report also includes data on the number of industrial robots installed, the number of robots in use, the number of robots in stock, the number of robots in the pipeline, and the number of robots in the backlog:

Robotic Arms

Robot Accessories

End Effectors

Controllers

Drive Units

Vision Systems

Sensors

Power Supply

Geographical Segmentation, Key Market Segments, Key Players, Key Trends, Key Challenges, Key Opportunities:

APAC (Japan, China, South Korea, Australia, India, and the Rest of APAC; the Rest of APAC is further segmented into Malaysia, Singapore, Indonesia, Thailand, New Zealand, Vietnam, and Sri Lanka)

Europe (Germany, UK, France, Spain, Italy, Russia, Rest of Europe; Rest of Europe is further segmented into Belgium, Denmark, Austria, Norway, Sweden, The Netherlands, Poland, Czech Republic, Slovakia, Hungary, and Romania)

North America (U.S., Canada, and Mexico)

South America (Brazil, Chile, Argentina, Rest of South America)

And the Rest of the World

Market Segmentation, Key Market Segments, Key Players, Key Trends, Key Challenges, Key Opportunities

The Asia Pacific region holds a prominent position in the industrial robotics market, serving both local and international demand. Leading countries like Japan, China, South Korea, and Taiwan are at the forefront of robotics adoption, particularly in the automotive, electronics, and machinery industries. Governments in the region recognize the importance of industrial robotics and have implemented initiatives to support its growth. These include financial incentives, tax benefits, and collaborations with research institutions and universities.

Market Segmentation, Key Market Segments, Key Players, Key Trends, Key Challenges, Key Opportunities @

<https://exactitudeconsultancy.com/reports/4138/industrial-robots-market/>

Market Segmentation, Key Market Segments, Key Players, Key Trends, Key Challenges, Key Opportunities

The report claims to split the regional scope of the Industrial Robots Market into North America, Europe, Asia-Pacific, South America & Middle East, and Africa. Which among these regions has been touted to amass the largest market share over the anticipated duration

How do the sales figures look at present How does the sales scenario look for the future Considering the present scenario, how much revenue will each region attain by the end of the forecast period

How much is the market share that each of these regions has accumulated presently

How much is the growth rate that each landscape will depict over the predicted timeline

Comprehensive market research report on the Industrial Robots Market:

- Detailed overview of the market
- Changing market dynamics of the industry
- In-depth market segmentation by type, application, etc.
- Past, current, and projected market size in terms of volume and value
- Recent industry trends and developments
- Competitive Industrial Robots Market Outlook
- Major Vendor and product offering strategies
- potential niche segments/regions showing promising growth

Key market insights:

Market Performance (2018-2024)

Market Forecast (2024-2030)

Porter's Five Forces Analysis

Market Drivers and Success Factors

SWOT analysis

value chain

Comprehensive mapping of the competitive landscape

Key market players and their competitive strategies - Overview

Chapter 1 Industrial Robots Market Overview

Chapter 2 Global Economic Impact on Industry

Chapter 3 Global Market Competition by Manufacturers and, Market Data

Chapter 4 Global Supply (Production), Consumption, Export, Import by Regions

Chapter 5 Global Production, Revenue (Value), Price Trend by Type and Region

Chapter 6 Global Market Analysis by Application

Chapter 7 Manufacturing Cost and, Gross Profit Analysis

Chapter 8 Industrial Chain, Sourcing Strategy, and Downstream Buyers  
Chapter 9 Marketing Strategy and, Status Analysis, Distributors/Traders  
Chapter 10 Market Driving Effect Factors Analysis  
Chapter 11 Global Industrial Robots Market Trends and, Forecast  
Chapter 12 Research Methodology

.....

Finally, the Industrial Robots Market report is a believable source for gaining market research that will exponentially accelerate your business. The report provides key regions, and economic situations, including item value, benefits, limits, generation, supply, request, market development rate and figures, etc. The industry report presents a new assignment SWOT examination, speculation attainability investigation, and venture return investigation.
