Definition:

An Electronic Paper Display (EPD), also known as an e-paper display or e-ink display, is a type of display technology that mimics the appearance of ink on paper. EPD technology is primarily used in devices such as e-readers, digital signage, and some smartwatches. It is designed to provide a comfortable and readable viewing experience, especially in situations where prolonged reading is required. Electronic Paper Displays are well-suited for applications where readability, energy efficiency, and long battery life are essential, but they may not be ideal for scenarios that require fast and dynamic content updates.
