

# Enterprise File Synchronization and Sharing Market Expected to Surpass USD 52.95 billion by 2030, At a CAGR of 26.95%

*EFSS solutions offer advanced collaboration features such as real-time editing, commenting, and task assignment, empowering teams to work together more effectively*

AUSTIN, TEXAS, UNITED STATES, April 24, 2024 /EINPresswire.com/ -- The [Enterprise File Synchronization and Sharing Market](#) size was valued at US\$ 7.58 billion in 2022 and is projected to reach US\$ 52.95 billion in 2030 with a growing CAGR of 26.95% Over the Forecast Period of 2023-2030.

Enterprise File Synchronization and Sharing (EFSS) market has witnessed significant growth in recent years, driven by the increasing adoption of cloud-based solutions and the growing need for secure and efficient data sharing among enterprises. Companies are increasingly recognizing the importance of EFSS solutions in enabling collaboration among employees, partners, and customers while ensuring data security and compliance with regulations.

One key trend shaping the EFSS market is the integration of advanced security features such as encryption, data loss prevention (DLP), and multi-factor authentication (MFA) to address the growing concerns related to data breaches and cyber threats. As organizations deal with a growing volume of sensitive data, they are seeking EFSS solutions that offer robust security capabilities to protect their information both at rest and in transit.
