

Aqua Pro Expands its Product Line, Adding ZeroFlush Urinal Products

ASHEVILLE, NORTH CAROLINA, UNITED STATES, April 30, 2024

/EINPresswire.com/ -- Aqua Pro, a leading provider of innovative water solutions, proudly unveils the expansion of its product offering with the addition of environmentally friendly [ZeroFlush \(Purleve\) products](#). This strategic move underscores Aqua Pro's commitment to sustainability and its dedication to providing cutting-edge solutions that benefit both businesses and the environment.

The ZeroFlush [no-water urinal](#) combines cutting-edge technology with sustainable design to offer a zero-water, zero-energy flushing system for toilets and urinals. By eliminating the need for water, this innovative product not only conserves precious resources but also reduces utility costs for businesses and institutions.

"We are excited to introduce ZeroFlush / Purleve as part of our commitment to sustainability and innovation," said Jason Rector, President of Aqua Pro. "With this addition to our product offering, we aim to provide our customers with a solution that not only meets their needs for hygiene and cleanliness but also aligns with their values for environmental responsibility."

Designed for commercial and institutional settings, ZeroFlush offers a hygienic and odor-free solution that minimizes water usage and reduces the carbon footprint associated with traditional flushing systems. Aqua Pro also offers ZeroFlush Odor Barrier Kits and Odor Barrier Oil. These supplementary products are specifically designed to complement the ZeroFlush urinal system, ensuring a clean and fresh environment for users.

As sustainability continues to gain prominence in the global marketplace, Aqua Pro remains at the forefront of innovation, providing businesses with the tools they need to achieve their environmental goals without compromising on quality or performance.
