

# Campworks Seeks Investment to Lead Outdoor Adventure Market with NS-1 Electric Overland Trailer

*Campworks Nomadic Systems Inc. is on a mission to lead the zero-impact outdoor adventure revolution with the NS-1, the "World's First all-electric trailer."*

DENVER, COLORADO, UNITED STATES OF AMERICA, April 24, 2024

[/EINPresswire.com/](https://www.einpresswire.com/) -- As humanity grapples with pressing environmental challenges and technological revolutions, Campworks recognizes the critical importance of reconnecting with nature in order to comprehend the value of preserving it. The [NS-1](#) isn't just a trailer; it is a testament.

Campworks empowers outdoor enthusiasts to explore with confidence and leads by example by offering an ingeniously designed product that outperforms, outlives and outclasses the gingerbread-house-styled trailers dominating the industry. The NS-1 teaches game-theory styled resource management, while simultaneously creating a framework that is shifting its industry into superior design and an ultimate user experience.

“

We are fighting for the human right to nature in the midst of climate change and technological revolution. With the NS-1 we offer a different path - a life guided by the sun and the flow of the river.”

*Thomas Hoffmann*

The fully electric NS-1 is capable of tackling any trail and gets energy infrastructure anywhere.

Now is the time. The overland and outdoor industries have surged in response to the global pandemic and a demand for accountable and positive eco-impact products and business. Campworks is poised to revolutionize the market. The NS-1 is designed to meet the needs of today's adventurers, offering high-quality, eco-conscious electric adventure trailers that maximize efficiency and comfort, all while reducing environmental impact, from manufacturing

to the end-user.

To fuel growth and bring the NS-1 to market on a larger scale, Campworks is actively seeking investment. The funds raised will be allocated towards 1) operational expenses, 2) marketing and sales development, 3) inventory and accounts payable for pre-order customers. With a valuation of \$2 million post-money SAFE, this represents a compelling investment opportunity.

Campworks logo inspired by the compass that guides each of us toward nature.

**LIVE WHERE YOU ARE**

The Campworks slogan points toward a grounded future and one where mobility is not hyperactivity.

The Campworks team, led by Founder and CEO Thomas Hoffmann and COO Mathew Hager, brings a wealth of experience and expertise to the table. With backgrounds in environmental design, global travel, remote living, operations, manufacturing, and engineering, they are positioned to address the challenges facing the outdoor adventure market and build a successful company.

Campworks plans to continue its growth trajectory by seeking additional rounds of fundraising before considering acquisition or an initial public offering (IPO). The focus is on expanding market presence, enhancing product offerings, and scaling operations to meet growing demand, with a clear path to profitability and maximum shareholder value.

Campworks has already demonstrated strong traction in the market with 12 delivered units, 8 outstanding pre-order customers, 3 units in production, and 1 new sale in March 2024 amidst a marketing pause to ensure manufacturability. The NS-1's innovative design namely mobile EV charging and fully electric design, coupled with sustainable features and materials, and robust off-road performance have resonated with customers, confirming the demand for eco-conscious and heirloom adventure trailers.

Investors interested in joining Campworks on this exciting journey are invited to contact us directly for more information about our Seed round funding opportunity.
