

# Steam Turbine Market: Exploring the Opportunities and Growth Drivers of the Sector in the 2023-2032 Timeframe

*Steam Turbine Market Expected to Reach \$22.4 Billion by 2032 — Allied Market Research*

WILMINGTON, DELAWARE, UNITED STATES, April 25, 2024 /EINPresswire.com/ -- Allied Market Research recently published a report on the [steam turbine market](#) which comprehensively covers the market based on its various segments including design, end-use industry, and forging capacity. To substantiate the information given, the report offers accurate CAGR values and revenue figures for the 2023-2032 timeframe. The in-depth analysis provided in the report, thus, helps the companies operating in this industry to increase their footprint in the industry.

**STEAM TURBINE MARKET**  
**OPPORTUNITIES AND FORECAST, 2023-2032**

Steam turbine market is expected to reach **\$22.4 Billion** in 2032

Growing at a **CAGR of 2.6%** (2023-2032)

Report Code: A05663, [www.alliedmarketresearch.com](http://www.alliedmarketresearch.com)

Steam Turbine Market Analysis

“

The rise in demand for energy and the reduction in fossil-based energy generation are the upcoming trends of the Steam Turbine Market in the world.”

A rapid pace of urbanization and industrialization is being witnessed across the globe which has led to a massive rise in the demand for electricity from different end-use industries. This growth in demand for electricity is

expected to play a vital role in increasing the growth rate of the steam turbine industry. Furthermore, the rise in demand for captive power systems is also predicted to help the industry flourish in the future years.

Apart from this, steam turbines offer certain important advantages such as reduced fuel utilization and reciprocating engines which are estimated to improve the market share of the sector. However, the costly nature of steam turbines is projected to create hurdles in the full-fledged growth of this domain. On the contrary, the massive investments in R&D activities related to advanced materials are expected to bring in new opportunities for growth for the steam turbine market in the coming period.

□□□□□□□□□□□□ □□□□□□□□ □□ □□□ □□□□□□ □□□□□□ □□□□□□□□:

The report on the steam turbine industry primarily focuses on the segmental study of the market on the lines of design, forging capacity, and end-use industry. Based on the design, the industry is classified into reaction and impulse steam turbines; on the other hand, the end-user industry segment is further divided into power generation, petrochemical, oil & gas, and other industries. Similarly, the forging capacity segment of the domain is classified into large forging and ultra-large forging sub-segments.

Apart from the segmental analysis, the report studies the performance of the market in different regions of the world including Asia-Pacific, Europe, North America, and LAMEA. As part of the Europe study, the report covers countries such as Spain, the UK, Germany, France, and Italy. Similarly, the Asia-Pacific study of the industry includes countries like South Korea, Australia, Japan, China, and India. The US, Canada, and Mexico are covered as part of the analysis of the North American region. Finally, Africa, the Middle East, and Latin America are analyzed in the LAMEA region. Along with the regional analysis, the report also includes the competitive scenario in the industry using scientific tools such as Porter's five forces.

□□□□□□□□□□□□ □□□□□□□□ □□ □□□ □□□□□□□□:

The report offers actionable data through its study of the market and analyzes the financial performance of the leading companies in this industry. Also, interviews with the major stakeholders in the industry are provided. The major companies profiled in the report are:

- Siemens Energy AG
- Chola Turbo Machinery International Pvt. Ltd.
- Toshiba Corporation
- Arani Power Systems Ltd.
- Mitsubishi Power Americas
- Doosan Skoda Power s.r.o.
- Turbine Generator Maintenance Inc.

- TURBOCAM, Inc.
- Elliott Group
- General Electric

Allied Market Research is a top provider of market intelligence that offers reports from leading technology publishers. Our in-depth market assessments in our research reports take into account significant technological advancements in the sector. In addition to other areas of expertise, AMR focuses on the analysis of high-tech systems and advanced production systems. We have a team of experts who compile thorough research reports and actively advise leading businesses to enhance their current procedures. Our experts have a wealth of knowledge on the topics they cover. Also, they use a variety of tools and techniques when gathering and analyzing data, including patented data sources.
