

Amplifying Digital Presence in the Construction Industry - April 25, 2024

Peer-to-peer digital content sharing for construction and building professionals

SUNDRE, ALBERTA, CANADA, April 25, 2024 /EINPresswire.com/ -- Since its establishment in 2003, Construction Links Network has emerged as a premier news and information hub in the construction sector. With a commitment to enhancing the digital presence and search engine visibility of its members, Construction Links Network has become an indispensable resource for a wide array of professionals. This includes construction managers, contractors, developers, building and property managers, architects, designers, engineers, and government officials.

As a dynamic hub for digital content dissemination, Construction Links Network offers its members diverse engagement opportunities through news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, and videos.

This week's highlight video from PCL Construction showcases the transformation of 2 Bloor Street West in Toronto. The project at the iconic Bloor and Yonge intersection modernizes the building's lobby into a retail space, featuring a new glass facade, revamped lobby, and two new escalators connecting to the subway. KingSett Capital's renovation of this 34-storey tower spans 32,000 square feet, designed for major retail tenants while keeping the building operational. Despite the building's age and unexpected conditions, PCL effectively managed the renovation, minimizing tenant disruption and completing the project on time.

This week's featured content includes a range of topical subjects:
