Help I-SEA Breathe Life back into Each Other, Society, and Nature through CPR. We aim to empower individuals with life-saving skills and foster a culture of preparedness within the community. Participants will receive

comprehensive training in CPR, AED (Automated External Defibrillator) operation, and how to stop bleeding in emergency situations. These certifications are particularly crucial for enthusiasts of extreme sports where quick thinking and action can make all the difference between life and death.

Leading the training sessions will be experts from Mana-Group Solutions, renowned for their expertise in emergency medical training. Participants will learn essential techniques to respond effectively in emergencies, potentially saving lives in critical situations.
