

United States Insulating Paints & Coatings Market Size/Share To Surpass USD 13.7 billion by 2030: Exactitude Consultancy

Elevating Energy Efficiency: Insulating Paints and Coatings Enhancing Thermal Performance and Sustainability in Building Envelopes

LUTON, BEDFORDSHIRE, UNITED KINGDOM, April 26, 2024
/EINPresswire.com/ -- Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030
Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030
Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030

Insulating Paints and Coatings

The Latest Research report on “global [Insulating Paints and Coatings](#) Market

Report 2023 – Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030, Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030, Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030 offers strategic visions into the global Insulating Paints and Coatings market along with the market size (Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030 – Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030 – Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030 USD Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030) and estimates for the duration 2023 to 2029. Insulation paints and coatings are applied on the surface for protection

“

Insulating Paints and Coatings Market: Rising demand for energy-efficient solutions in construction and automotive sectors to reduce heat transfer and improve insulation.”

Exactitude Consultancy

and also to reduce heat transfer from the object. Generally, coatings and paints are applied to the exterior and interior of buildings to provide thermal insulation to them, which is of vital importance. Insulation coatings and paints also have corrosion inhibitor properties, and therefore, have industrial applications where they are applied on pipes, equipment, machines, and plants. Apart from energy cost reduction, these components also reduce heat energy transfer.

The Global Insulating Paints & Coatings Market is expected

to grow at more than 5.8% CAGR from 2023 to 2030. It is expected to reach above USD 13.7 billion by 2030 from a little above USD 8 billion in 2023.

Insulating Paints and Coatings Market Report 2023 - Global Market Size, Share, and Growth Forecast to 2030

<https://exactitudeconsultancy.com/reports/884/insulating-paints-and-coatings-market/#request-a-sample>

Some of the important players in Insulating Paints and Coatings market are:

Nippon Paints, Axalta Coating System, BASF se, General Coatings Manufacturer Corp, Henry Company, Kansai Paints Co. Ltd., PPG Industries and other.

Industry News and Updates:

In February 2024, Kansai Helios took over Weilburger to acquire the whole industrial business and expand its reach in the U.S., China, France, Italy, Germany, Turkey, Brazil, and India.

“Rising Energy Consumption and Growing Construction Sectors”

Insulation coatings used during construction upgrade buildings by increasing energy efficiency and reducing the operational cost of the building. Insulation on walls prevent heat gain or loss through the building, which reduces the cooling expenses of residents.

“Extensive Benefits in Electronics, Automotive, and Petrochemical Industries”

Several industries are acknowledging the features of insulation paints and coats for their benefits. Insulating coatings withstand severe environments that cause the corrosion of metal. Insulation coatings strengthen the structural integrity of pipelines and equipment used in the chemical industry.

“Stringent Government Regulations Governing the Industry”

Volatile organic compounds (VOC) are emitted from paints and coatings, which are hazardous air pollutants. These can cause numerous health issues such as headaches, nervous system damage, cancer, eye irritation, nausea, and kidney damage. These compounds can also contaminate groundwater.

Insulating Paints and Coatings Market Segmentation:

This research report categorizes the Insulating Paints and Coatings market into the following segments and subsegments:

Insulating Paints And Coatings Market, By Material Type, 2023-2028, (IN USD MILLION)

Acrylic

- Polyeurathane
- Epoxy
- Mullite
- Yttria Stabilized Zirconia
- Other

Insulating Paints And Coatings Market, By End Use, 2023-2028, (IN USD MILLION)

- Interior
- Exterior
- Other

Insulating Paints And Coatings Market, By End User, 2023-2028, (IN USD MILLION)

- Electrical
- Aerospace
- Automotive
- Building And Construction
- Marine
- Other

Insulating Paints And Coatings Market, By Application, 2023-2028, (IN USD MILLION)

- Residential
- Commercial
- Industrial
- Other
