The hemp clothing market holds a significant scope for growth during the forecast period. Currently, the market is moving toward maturity stage and is expected to garner steady growth in major markets, which include the U.S., China, and India.

The hemp clothing market has witnessed steady growth even under several unresets such as global uncertainty, weakened global economy, and others. According to the insights of the CXOs, the activewear segment is anticipated to witness significant growth, owing to increase in the affinity of consumer toward sportswear.

In addition, increase in sponsored sports events by government and private organizations to augment the participation of young population from developing regions fosters the growth of the sports apparel segment. Moreover, rise in the frequency of direct to consumer advertisements is anticipated to propel the market growth. E-commerce segment has enabled consumers to procure exclusive hemp clothing at better cost, thereby increasing overall sales of hemp clothing.
