

Fin+AI 2024 Redefines Financial Intelligence with First Wave of Visionary Speakers

With its theme, "Redefining Financial Intelligence" the Fin+AI 2024 Conference is set to take place October 2 - 4, 2024 at Le Méridien, in Dania Beach, Florida

TAMPA, FLORIDA, UNITED STATES, April 26, 2024 /EINPresswire.com/ -- In his annual shareholder's letter, JPMorgan Chase CEO, Jamie Dimon chose AI as the first topic on his shortlist of issues facing the world's biggest bank, putting it before all other topics of discussion in his annual report.

"While we do not know the full effect, or the precise rate at which AI will change our business, or how it will affect society at large, we are completely convinced the consequences will be extraordinary," Mr. Dimon said. AI's impact will be "possibly as transformational as some of the major technological inventions of the past several hundred years: Think the printing press, the steam engine, electricity, computing, and the Internet."

With this edict in mind, the Fin+AI is proud to announce its first round of visionary speakers, and event partners for the upcoming Fin+AI 2024 Conference. The future is colliding with the present, at this groundbreaking new event, which is focused on the convergence of Fintech and AI. With
