The Americas' Fastest Growing Companies 2024 ranking identifies companies with the strongest revenue growth between the years 2019 and 2022. The creation of the ranking was based on a

four-step process:

1. Application Phase: More than 30,000 eligible companies were invited to register. Only companies that met the criteria could apply for the ranking.
2. Research Phase: Statista examined the officially stated revenue data of over 1000 publicly listed companies in the Americas, and added high-profile companies that met the criteria of minimum revenues, independence, and organic growth to the list.
3. Evaluation Phase: The compound annual growth rate was calculated based on the revenue figures submitted and verified by the companies.
4. Ranking: The top 500 companies that met the criteria were ranked.

Based on the results of the study, Vector Global Logistics is ecstatic to be recognized on the Financial Times list of The Americas' Fastest Growing Companies 2024.

Statista publishes hundreds of worldwide industry rankings and company listings with high-profile media partners. This research and analysis service is based on the success of statista.com, the leading data and business intelligence portal that provides statistics, relevant business data, and various market and consumer studies and surveys.
