

MyLegal Launches Product To Help Legal Departments Better Manage Their Legal Matters

EL DORADO HILLS, CA, UNITED STATES, May 7, 2024 /EINPresswire.com/ -- Legal Automation Group, LLC, a legal technology software developer has extended its best-in-class MyLegal Legal Front Door® and AI/Automation platform with its recently released Matter Lifecycle Management (MLM) module.

With MyLegal's MLM module legal departments can now automate all legal matter work activities covering the full lifecycle of a matter, starting with pre-matter intake and triage, matter approvals, planning and organizing resources, firm RFP processes, project management, budgeting, performance evaluations, and more.

Matter Lifecycle Management

“MyLegal's MLM module solves a major industry problem. Currently, legal matter-related activities are being worked manually by the legal staff, since existing ELM solutions have not automated many processes that are part of managing a matter. Building these capabilities within an ELM/Spend Management system, is possible, but has proven to be too costly and time consuming”, stated MyLegal CEO, Jim Tate.

“

I was astonished at how fast the MyLegal team could bring our vision to life. Our collaboration has resulted in a solution which now helps legal teams improve productivity and efficiency...”

*Scott Rosenberg, CEO
Unbiased Consulting, LLC*

MyLegal's customer success and engineering teams worked closely with Scott Rosenberg, CEO Unbiased Consulting, LLC and industry experts from CLOC's LPM committee. They were responsible for authoring critical MLM workflow diagrams and templates. Leveraging this

effort, MyLegal automated all of the defined MLM processes end-to end using its best-in-class agile low code, no code automation platform.

“We set about trying to solve the MLM problem by first identifying and documenting all the work-related process flows. We wanted to lay the foundation for process improvement”, said Scott Rosenberg. “I was astonished at how fast the MyLegal team could bring our vision to life. Our collaboration has resulted in a solution which now helps legal teams improve productivity and efficiency when working their legal matters.”
