

Saudi Arabia and Middle East Radioisotope Market Projected To Garner Significant Growth by 2024 -2031: IBA, Nordion

BURLINGAME, CALIFORNIA, UNITED STATES, April 30, 2024

/EINPresswire.com/ -- [Saudi Arabia and Middle East Radioisotope Market](#) reports provide an in detail assessment and actionable insights into the market for the forecasted period (2024-2031).

The study of the Saudi Arabia and Middle East Radioisotope Market provides an in-depth analysis of the market for the projected time frame (2024–2030). There are other parts in the study that moreover analyze the trends and variables that are significantly influencing the industry. The drivers, restrictions, opportunities, and difficulties that define the impact of these features on the market are included in these factors, which also include the market dynamics. The market is affected by both essential (the drives and restraints) and extrinsic (the opportunities and challenges) factors. The research on the Saudi Arabia and Middle East Radioisotope Market provides an overview of the market's revenue evolution during the forecast period.

The Saudi Arabia and Middle East radioisotope market size was valued at US\$ 691.3 Mn in 2023 and is expected to reach US\$ 1,604.4 Mn by 2031, growing at a compound annual growth rate (CAGR) of 11.1% from 2024 to 2031.

Saudi Arabia and Middle East Radioisotope Market: Scope of the Report

This research provides a thorough review of the Market for Saudi Arabia and Middle East

Radioisotope. The report's market estimations are the result of extensive secondary research, primary interviews, and internal expert assessments. By evaluating the effects of various social, political, and economic aspects as well as the current market dynamics impacting the growth of the Saudi Arabia and Middle East Radioisotope market, these market estimates have been taken into consideration.

This chapter includes a copy of Porter's Five Forces analysis, which explains the five forces: buyers' bargaining power, suppliers' bargaining power, the threat of new entrants, the threat of substitutes, and the level of competition in the Saudi Arabia and Middle East Radioisotope market, in addition to the market overview, which covers the market dynamics. It goes into detail into the various market ecosystem players, such as system integrators, middlemen, and end users. The competitive environment of the Market for Saudi Arabia and Middle East Radioisotope is another important topic covered in the study.

Saudi Arabia and Middle East Radioisotope Market: Competitive Landscape

In the segment specifically devoted to leading companies in the Saudi Arabia and Middle East Radioisotope Market of the market analysis document, our researchers provide a summary of the financial statements of all the major companies, covering their noteworthy developments, product benchmarking, and SWOT analysis. The corporate profile copy also includes financial information and a business summary. The businesses in this area can be customized to match the unique needs of the client.

Some of the Top Players in Saudi Arabia and Middle East Radioisotope Market:

- GE Healthcare
- IBA
- Sumitomo Corporation
- BWX Technologies Inc.
- Advanced Cyclotron Systems Inc.
- Navidea Biopharmaceuticals Inc.
- BEST Cyclotron Systems Inc.
- NorthStar Medical Radioisotopes
- Siemens Healthineers
- Novartis
- Moravek Biomedicals Inc.
- Nordion
- Research Products International Corp.
- Cardinal Health Nuclear Pharmacy
- American Radiolabeled Chem. Inc.
- Perkin-Elmer (NEN)
- IRE
- Eckert & Ziegler.

- Curium
- ANSTO
- HTA Co.
- Ltd, Isotope JSC.
- SAMIRA
- OECD-NEA
- Telix Pharmaceuticals Limited.
- The State Atomic Energy Corporation
- ROSATOM
- ISOTOPIA
- NTP Radioisotopes
- KFSH&RC
- Jordan Research and Training Reactor
- Esfahan Nuclear Technology Center
- ETRR-2
- SRR-1

Market Segmentation:

By Radioisotopes: Molebdennum 99/Technetium-99, Iodine-131, Iodine-125, Yttrium-90, Strontium-89, Cesium-137, Cobalt-60, Iridium-192, Selenium-75, Lutetium 177, Germanium-68/gallium-68, Nickel-63, Copper-67, Scandium 47, Phosphorus-32, Holmium 166, Chromium 51, Samarium 153, Rhenium-188, Terbium-161, Radium -226, Rhenium-186, Actinium-225, and Others

By Application: Medical Application [Medical Imaging, Single Photon Emission Computed Tomography (SPECT), Positron Emission Tomography (PET)], Radiation Therapy [Gamma radiotherapy, Brachytherapy, Targeted-Alpha-Therapy (TAT)], Clinical Research (Cell Biology, Drug Development, Metabolic Pathway Study, and Industrial Application (Inspection/Monitoring, Measuring, Quality Control and Testing, Sterilization, Food Preservation)

By End User: Hospitals, Imaging Centers, Research Centers, Biopharmaceutical Companies, Food Industry, Chemical Industry, and Others

Saudi Arabia and Middle East Radioisotope Market: Research Methodology

The research methodology includes both primary and secondary research, as well as expert panel reviews. Secondary research utilizes press releases, company annual reports, research papers related to the industry, industry periodicals, trade journals, government websites, and associations to collect precise data on business expansion opportunities. Primary research

entails conducting telephone interviews, sending questionnaires via email, and, in some instances, engaging in face-to-face interactions with a variety of industry experts in various geographic locations. Typically, primary interviews are ongoing to obtain current market insights and validate the existing data analysis. The primary interviews provide information on crucial factors such as market trends, market size, the competitive landscape, growth trends, and future prospects. These factors contribute to the validation and reinforcement of secondary research findings and to the growth of the analysis team's market knowledge.

The report provides insights on the following pointers:

□Market Penetration: Comprehensive information on the product portfolios of the top players in the Saudi Arabia and Middle East Radioisotope market.

□Product Development/Innovation: Detailed insights on the upcoming technologies, R&D activities, and product launches in the market.

□Competitive Assessment: In-depth assessment of the market strategies, and geographic and business segments of the leading players in the market.

□Market Development: Comprehensive information about emerging markets. This report analyzes the market for various segments across geographies.

□Market Diversification: Exhaustive information about new products, untapped geographies, recent developments, and investments in the Saudi Arabia and Middle East Radioisotope market.

Reasons to Purchase this Report:

□Regional report analysis highlighting the consumption of products/services in a region also shows the factors that influence the market in each region.

□Reports provide opportunities and threats faced by suppliers in the Saudi Arabia and Middle East Radioisotope industry around the world.

□The report shows regions and sectors with the fastest growth potential.

□A competitive environment that includes market rankings of major companies, along with new product launches, partnerships, business expansions, and acquisitions.

□The report provides an extensive corporate profile consisting of company overviews, company insights, product benchmarks, and SWOT analysis for key market participants.

□This report provides the industry's current and future market outlook on the recent development, growth opportunities, drivers, challenges, and two regional constraints emerging in advanced regions.

Questions Answered by the Report:

- (1) Which are the dominant players of the Saudi Arabia and Middle East Radioisotope Market?
- (2) What will be the size of the Saudi Arabia and Middle East Radioisotope Market in the coming years?
- (3) Which segment will lead the Saudi Arabia and Middle East Radioisotope Market?
- (4) How will the market development trends change in the next five years?
- (5) What is the nature of the competitive landscape of the Saudi Arabia and Middle East Radioisotope Market?
- (6) What are the go-to strategies adopted in the Saudi Arabia and Middle East Radioisotope Market?
