Definition:

Engineering insurance, also known as engineering all-risk insurance or engineering project insurance, is a type of insurance policy designed to provide coverage for engineering projects, construction projects, and machinery and equipment used in various industries.

Market Trends:

- Adoption of parametric insurance for construction delays and natural disasters.

Market Drivers:

- Increasing infrastructure development projects worldwide.
- Growing awareness of risk management among project stakeholders.

Market Opportunities:

- Development of tailored insurance solutions for emerging risks, such as cyber threats.

Market Restraints:

- High underwriting risks and volatility in engineering insurance markets.

Market Leaders & Development Strategies

- On 12th June 2023, Assicurazioni Generali partnered with four other insurance firms, including Allianz, Intesa Sanpaolo Vita, Poste Vita, and Unipol SAI, to execute a collective initiative aimed at ensuring the security of Eurovita policyholders. This collaboration involves joint efforts to implement strategies and measures for the protection and benefit of individuals holding policies with Eurovita, demonstrating a coordinated approach to addressing their insurance needs and concerns.

- On 8th May 2023, Aviva plc has finalized a significant bulk annuity buy-in transaction worth £900 million with the Trustees of the Thomas Cook Pension Plan. This transaction entails Aviva assuming responsibility for a portion of the pension liabilities of the Thomas Cook Pension Plan, thereby securing the retirement benefits of plan members.
