Georgia Rural Water Association (GRWA) 44th Spring Conference

Adam Corwin, President with Centrix Energy Partners, will present:
Self-Funding Approach to I&I (Infiltration and Inflow) Remediation

Adam Corwin
President / CEO
Centrix Energy Partners

Centrix Energy Partners

May 9
2:00 - 2:30 PM
Duration: 30 Minutes

GRWA 44th Spring Conference

The Georgia Rural Water Association (GRWA) is a non-profit organization representing rural systems throughout the State of Georgia regarding drinking water and wastewater needs. The association is governed by a volunteer Board of Directors comprised of distinguished members of the water and wastewater industries. Active Members consist of public and non-public water and wastewater systems. Corporate and Associate Member support and participation are the foundation of GRWA's Partnership Program for Rural Systems.

When: May 7 - May 9, 2024
Where:
Jekyll Island Convention Center
75 Beachview Drive North
Jekyll Island, GA 31527

GRWA CEP Adams presentation

[Adam Corwin](#), the esteemed President of Centrix Energy Partners and a renowned expert in Infiltration and Inflow (I&I) remediation, will deliver a pivotal presentation on May 9th at 2:00

“

Our self-funding approach to infiltration and inflow (I&I) remediation offers a groundbreaking solution to cities & organizations facing challenges with their aging water infrastructure”

Adam Corwin, President/CEO

p.m. His talk, "The Self-Funding Approach to Infiltration and Inflow (I&I) Remediation," will tackle the critical issue of aging water infrastructure in cities and provide insights on self-funding projects. Adam, with his vast knowledge and experience, will delve into various topics, including the significance of AWWA water balance, the creation of a digital twin of the collection system, identification of sources of infiltration and inflow (I&I), quantification of the "cost of inaction" by not proactively addressing I&I, turnkey solutions to reduce I&I, and viable funding sources for rural communities to undertake these initiatives with

minimal or no cost to the utility itself.

Participants are strongly urged to reserve their seats and plan to attend Adam's unique presentation. This session offers invaluable insights and benefits crucial for their success in addressing water infrastructure challenges.

Adam Corwin, President of Centrix Energy Partners, is eager to share our “self-funding approach to I&I Remediation. This groundbreaking solution particularly benefits rural communities and educational institutions dealing with aging water infrastructure. These entities can achieve long-term success in addressing their water infrastructure challenges by implementing these strategies and securing self-funding projects.”

About GRWA:

The Georgia Rural Water Association (GRWA) is a non-profit organization dedicated to representing rural systems throughout Georgia in matters of drinking water and wastewater

needs. Comprised of accomplished members from the water and wastewater industries who serve as volunteers on the Board of Directors, GRWA supports both public and non-public water and wastewater systems. The organization's Partnership Program for Rural Systems thrives on the support and participation of Corporate and Associate Members.

About Centrix Energy Partners:

Centrix Energy Partners LLC is a design-build finance company specializing in comprehensive energy initiatives and design-build construction projects for K-12 schools, higher education institutions, cities, and towns.
