

Designed to Talk Appointed as Preferred Partner by Ionos.com for Key Global Markets

Designed to Talk, provider of Intelligent Unified Communications appointed by Ionos.com as their preferred partner across the UK, Germany, France & USA

LONDON, UNITED KINGDOM, May 2, 2024 /EINPresswire.com/ -- Designed to Talk, a leading provider of Unified Communications as a Service (UCaaS), Contact Center as a Service (CCaaS), and state-of-the-art Security solutions, is delighted to announce its appointment by Ionos.com as their preferred Independent Software Vendor (ISV) partner across the United Kingdom, Germany, France, and the United States.

This strategic partnership signifies a significant milestone for both Designed to Talk and Ionos.com, as they join forces to offer unparalleled communication and security solutions to businesses across key global markets. With Ionos.com's extensive reach and Designed to Talk's cutting-edge technology, customers can expect innovative solutions backed by world-class support and seamless integration.

As businesses navigate an increasingly complex digital landscape, the demand for robust communication and security solutions has never been higher. Designed to Talk understands these challenges and is committed to empowering businesses with comprehensive UCaaS, CCaaS, and security offerings that streamline operations, enhance productivity, and safeguard critical data.

Benefits of the Combined Solution:

Seamless Integration: Designed to Talk's solutions seamlessly integrate with Ionos.com's

infrastructure, providing customers with a unified platform for all their communication and security needs. Whether it's voice, video, messaging, or data security, businesses can consolidate their tools and streamline processes for maximum efficiency.

Enhanced Collaboration: By leveraging Designed to Talk's UCaaS and CCaaS solutions, teams can collaborate more effectively regardless of their location. With features such as instant messaging, virtual meetings, and omnichannel customer support, businesses can foster collaboration and deliver exceptional customer experiences.

Scalability and Flexibility: Designed to Talk's solutions are designed to scale with businesses of all sizes, allowing them to adapt to changing needs and growth opportunities. Whether it's adding new users, expanding to new markets, or incorporating advanced security features, businesses can rely on a flexible platform that evolves with them.

Advanced Security Features: Security is paramount in today's digital landscape, and Designed to Talk's partnership with Ionos.com ensures that customers benefit from best-in-class security solutions. From data encryption and threat detection to access control and compliance management, businesses can mitigate risks and protect sensitive information.

Global Delivery and Support: With Ionos.com's global presence and Designed to Talk's commitment to customer satisfaction, businesses can access comprehensive support and services wherever they are. Whether it's implementation, training, or ongoing technical support, customers can rely on a dedicated team of experts to deliver results.

About Designed to Talk:

Designed to Talk is a leading provider of Unified Communications as a Service (UCaaS), Contact Center as a Service (CCaaS), and Security solutions. With a focus on innovation and customer satisfaction, Designed to Talk empowers businesses with cutting-edge technology that enhances communication, collaboration, and security.

About Ionos.com:

Ionos.com is a leading provider of cloud infrastructure and hosting solutions for businesses of all sizes. With a global network of data centers and a commitment to reliability and performance, Ionos.com enables businesses to succeed in the digital age by providing scalable and secure cloud services.
