

# Burwood Group Achieves Cisco Gold Provider Status

*Recognition Highlights Enhanced Solutions and Expertise in Technology*

CHICAGO, ILLINOIS, UNITED STATES, May 2, 2024 /EINPresswire.com/ -- Burwood Group, a renowned provider of technology consulting and integration solutions, is proud to announce that it has achieved the prestigious Cisco Gold Provider status. This significant milestone underscores Burwood Group's commitment to maintaining the highest standards of technological expertise and customer service.

This achievement is a testament to the work and dedication of our team. Leveraging this status, we will continue to enhance our solutions and services to deliver even greater value to our clients."

*Pete Scaramuzzo, Chief Revenue Officer*

Achieving Cisco Gold Provider status involves meeting rigorous standards set by Cisco, including expertise in delivering integrated and customized technology solutions. Burwood Group's achievement reflects its commitment to excellence and continuous improvement in its service offerings.

"We are thrilled to be recognized as a Cisco Gold Provider,"

said Pete Scaramuzzo, Chief Revenue Officer of Burwood Group, "This achievement is a testament to the work and dedication of our team. Leveraging this status, we will continue to enhance our solutions and services to deliver even greater value to our clients."

"Cisco is very pleased that Burwood has continued to invest with us to achieve Gold Provider Status. Coupled with the addition of 3 additional Cisco Powered Services of Cloud Calling, Webex Contact Center, and Catalyst SD-WAN and SD-WAN Meraki as well. We are extremely excited to see Burwood deliver and manage unique and differentiated outcomes to our customers." — Andrew Wozniak - Senior Director, Americas Managed Services at Cisco With its new status, Burwood Group will offer enhanced service offerings, providing clients with access to the most advanced Cisco solutions and technologies. Clients will benefit from Burwood's reinforced expertise in Cisco technologies, which will enable more robust IT infrastructures and innovative solutions tailored to their specific needs.
