PRINCETON, NEW JERSEY, UNITED STATES, May 2, 2024 /

EINPresswire.com/ -- The new Paws Petty dog nail grinder emits a soothing sound that lulls pets into a calm state during trimming sessions, making it feel like a spa experience for them. This quiet sound also ensures that pets using the grinder for the first time won't be startled or scared.

Compared to traditional clippers, the Paws Petty pet nail grinder is widely considered a safer option for trimming pet nails. Unlike clippers, which can accidentally clip the quick (the blood vessel in the pet's nail), the grinder gently removes nail material without causing pain or risk of injury. This significantly reduces anxiety in dogs and cats, who often develop a fear of nail trimming due to the potential for pain with clippers.
