"What makes welders extremely unique when it comes to asbestos exposure is their gear, they would have used in the 1960s, 1970s, or early 1980s would have been made of-or would have contained asbestos. In addition, many of the pieces of equipment-or materiel they were welding may have contained or might have been insulated with asbestos. A mesothelioma compensation claim for a welder might be in the millions of dollars-as attorney Andy Waters is always happy to discuss at 866-714-6466.
