At the heart of Wanderlust App is the AI Travel Assistant, an intelligent feature that crafts personalized travel suggestions by analyzing users' preferences, budgets, and local weather conditions. This powerful tool ensures that planning travel is not only easier but also tailored to meet the individual needs of each user.

places they're interested in exploring in the future, making it easy to organize potential trips anywhere around the world.

- Favorite Places: Travelers can highlight and save their favorite locations, creating a personalized catalog of top spots that can be revisited and recommended on their own profile.
