FMUSER Lanuches Arabic Hotel IPTV Solution for Jeddah-Saudi Arabia Hotel Industry

Jeddah's rapidly growing hotel IPTV market urgently seeks novel solutions for competitiveness and enhanced guest experiences, particularly for Arabic customers
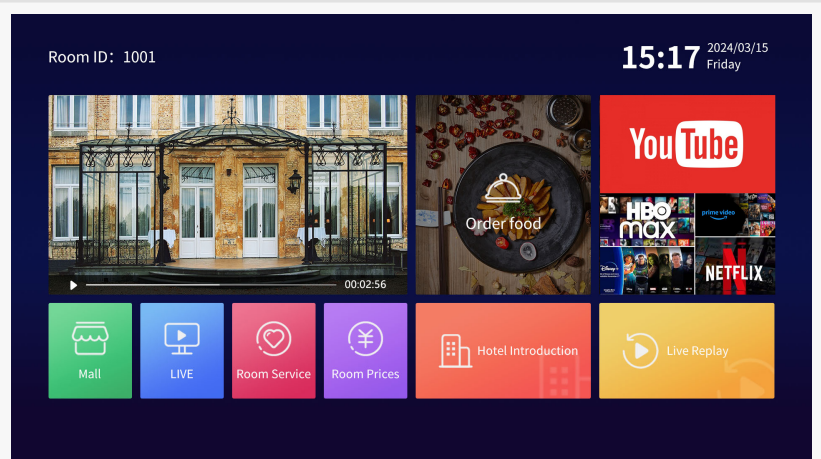

GUANGZHOU, GUANGDONG, CHINA, May 6, 2024 /EINPresswire.com/ -- FMUSER's Arabic IPTV Solution offers a culturally immersive in-room experience, boosting Jeddah hotels' competitiveness.
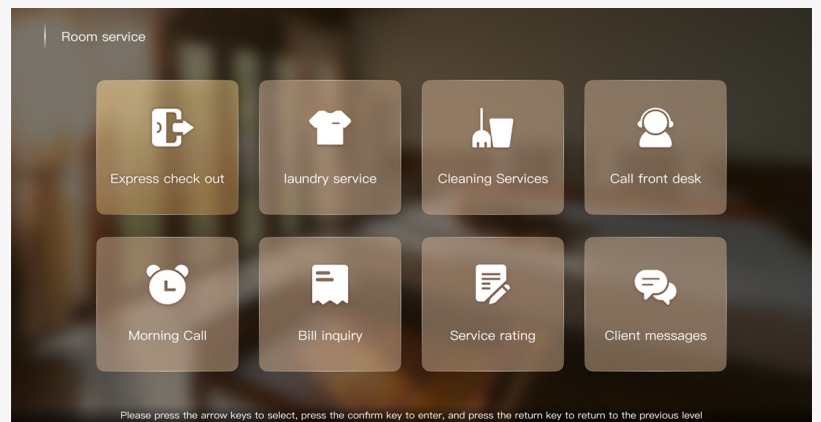

I. Main Features

FMUSER's IPTV hotel solutions comes packed with a wealth of features uniquely tailored to meet the needs of the hospitality industry, including:

1. Cost-Friendly: Recognizing budget constraints that can deter hoteliers from embracing IPTV, FMUSER's solution operates on a one-time payment model. This presents a long-term, budget-friendly alternative to expensive monthly subscriptions for each box, such as DSTV.

2. Seamless Integration with Existing Systems: FMUSER's IPTV solution easily integrates with existing hotel systems such as PMS, digital signage systems, and CCTV. This enables centralized control and better coordination, leading to more effective

FMUSER can customize IPTV system user interface as per requirement for hospitality, healthcare, education, government, residential area, cruise ships, trains, gyms, restaurant, or else. All elements can be customized, from colors, position, to templates.

FMUSER's hotel IPTV system enables guests to conveniently access a range of services from their room, including cleaning, laundry, etc. This integration eliminates the need for multiple calls or visits, simplifying and enhancing the guest experience.

and efficient hotel management.

3. Customized Interactive Features and Functions: Designed with an Arab hospitality spirit in mind, FMUSER's IPTV solution offers a range of interactive features to enhance the guest experience. Upon entering their rooms, guests are greeted by personalized messages on their TV screens. An intuitive program guide presents a variety of Arabic TV channels, including UHF, free satellite, and pay TV options. A Video-on-Demand service offers a selection of Arabic films and series. The system integration with popular Arabic social media platforms allows guests to stay connected during their stay. Furthermore, guests can order room service featuring Arabic cuisine specialties, access detailed information about Arab cultural events and traditions, receive prayer time notifications, and explore local Arab attractions and recommendations.

FMUSER's hotel IPTV solution offers versatile content sources, including UHF and satellite signals (paid TV programs like Canal+ and DSTV, as well as free TV programs like Arabsat, Ethiosat, Hotbird, and Nilesat), along with encrypted TV programs through

4. Future-Proof: FMUSER's IPTV solution is a scalable platform, ready to be expanded or modified to accommodate future developments, ensuring FMUSER's hotel remains at the forefront of technological advancements.
5. High-Quality Viewing Experience: Delivering high-definition (HD) content, FMUSER's IPTV solution provides guests with a superior viewing experience compared to traditional cable TV.

These features aim to provide a comprehensive, culturally immersive in-room experience for guests while enhancing the competitive edge of hotels iptv Jeddah. Explore more in Saudi Arabia:

II. Main Functions

FMUSER's IPTV solution also incorporates a variety of dynamic features, each tailored with a

culturally appropriate Arabic aesthetic:

1. Live TV Sources: The solution provides multiple Live TV sources from satellite, UHF, HDMI, and personal devices such as DVD players. These include Arabic channels and shows, fostering a sense of home for local guests and providing an immersive cultural experience for international visitors.

2. Video-On-Demand Function: FMUSER's Arabic-styled video-on-demand function allows guests to browse and watch their favorite Arabic movies or shows at their convenience, creating a personalized entertainment experience.

3. Hotel Introduction Function: This feature enables hotels to introduce their amenities, services, and unique selling points to guests in a local, familiar language, ensuring effective communication and an unforgettable first impression.

4. Food Ordering Function: FMUSER's solution incorporates a food ordering function that showcases local cuisine, allowing guests to order their meals in Arabic, adding an extra layer of comfort and convenience.

5. Hotel Services Integration: FMUSER's IPTV system integrates various hotel services, such as Arabic spa treatments or local tour bookings, providing guests a seamless digital platform for all their needs.

6. Nearby Scenic Spots Introduction: This function introduces local attractions and scenic spots, complete with Arabic descriptions, helping guests to delve deeper into Jeddah's rich culture and history.

IV. FMUSER's Services

1. TV Sets Bundle: FMUSER offers a cost-friendly TV Sets Bundle, ideal for new hotels establishing their IPTV system or existing hotels shifting from cable TV to IPTV.

2. System Custom Services: Recognizing that each hotel has unique needs, FMUSER offers system custom services. FMUSER evaluates aspects such as budget, room numbers, and existing equipment to offer iptv for hotel solution tailored specifically to each hotel. Whether a hotel already has a cable TV system in place or a newly built property is setting up their television system from scratch, FMUSER's tailored solutions can meet hotel's specific requirements.

3. On-Site Installation Services: FMUSER provides complete on-site installation services, including an extensive TV channel selection from multiple sources such as satellite, UHF, and others. FMUSER's team ensures a smooth and efficient installation process, minimizing disruption to hotel's operations.

4. System Pre-Configuration for Plug-and-Play: To further simplify the transition, FMUSER offers a pre-configured system that is ready for plug-and-play use. This service ensures minimal setup time, allowing hotels to offer IPTV services to their guests as quickly as possible.

5. Optional Arabic Content Library: Understanding the importance of localized content, FMUSER offers an optional Arabic content library if needed. This enables hotels to provide their guests with an array of local content, enhancing the guest experience and promoting cultural immersion.

6. Systematic Training and Product Documentation: To ensure a smooth handover and effective usage of FMUSER's IPTV solution, FMUSER provides comprehensive training to hotel staff, from top management to receptionists and engineers. Additionally, FMUSER's detailed product documentation will serve as a valuable reference as engineers operate and maintain the IPTV system.

V. Equipment List

FMUSER's comprehensive list of Hotel IPTV equipment includes:

- FBE308 Free Satellite Receiver (FTA)
- FBE302U UHF receiver
- FBE801 IPTV Gateway (IPTV Server)
- Network switches
- FBE010 decoders
- Hardware encoders (HDMI, SDI, etc.)
