Here are a few testimonials from some of their many clients:

"My husband had a problem with significant loss of hearing in one ear over a 24 hour period. Pete saw him later that day, even though it was a Saturday. He gave him a hearing test, quickly identified potential problems, and was able to get him into see an ENT specialist at the Hallamshire hospital within an hour for a check-up and prescription, with subsequent follow-up. We were extremely impressed. Thank you Peter," thanked Alex Ford.

Roger Grey wrote, "An interesting visit to Peter this morning concerning my longstanding tinnitus. A hearing test showed something of which I was unaware and we discussed that together with what could be done to moderate the buzzing in my head! Two options, which came as a surprise. It is reassuring to be dealt with by a professional, which is what happened today. I suspect this will not be my only visit to Thornbury. Thank you!"
