

# Teak Furniture Direct - Friends Separated by Covid Deliver Balinese Furniture Directly to the Lake of the Ozarks

*Bali Teak Collective is set to expand its locations from Los Angeles and St. Louis to the Lake of the Ozarks with Memorial Day Sale!*

ST. LOUIS, MO, UNITED STATES, May 8, 2024 /EINPresswire.com/ -- Far from Bali, the Lake of the Ozarks is known for its extensive shoreline dotted with docks, patios and pools, which epitomize the area's love for boat life and beach living. However, given its remoteness from major urban centers, the void in the marketplace for premium, exotic furnishings is more than apparent. [Bali Teak Collective is set to fill this niche](#) by delivering the artistry of Balinese teak furniture directly to the lake community at an affordable cost.

“

At Bali Teak Collective, we have re-imagined the exotic furniture buying experience. We deliver RH and Arhaus quality teak furniture direct to your door without all of the costly middlemen.”

From the Hardwood to the Finewood

Josh Hotz and Zach LaBoube spent their summers in the Ozarks. Their relationship began as adversaries on the basketball court where they competed against one another in the small midwestern town of Washington, about 100 miles northeast. They remained close, even when Zach moved abroad in 2014, which ultimately landed him in SouthEast Asia.

With prudence, Dr. Zach left his chiropractic practice in Singapore for his villa in Bali on March 18th 2020. Little did he know, the brewing pandemic would leave him stuck there for the remainder of the year. Via zoom calls with friends and family

in the states, he was always questioned about the one-of-a-kind Balinese furniture that adorned his villa. With over 10 years of eCommerce experience following [the publication of his book](#) and development of his vitamin supplement line, Dr. Zach saw an opportunity.

His first call was to Josh - and his vast experience in global logistics and corporate sales. With Zach's flip-flops on the ground building relationships throughout the Indonesian Islands, in combination with Josh's global logistical connections, Bali Teak Collective was born. The first of its kind, direct-to-consumer, exotic furniture business.

### The Timeless Elegance and Durability of Teak

Teak wood is renowned for its exceptional durability and natural resistance to weather, making it an ideal choice for the varying climates of the Midwest. "Teak is perfectly suited for the lake, both from an aesthetic standpoint and certainly from a durability standpoint. The problem is that for most home-owners at the lake, teak and suar wood furniture might as well be from Mars. Which is what the traditional furniture model would have you believe. But it doesn't have to be that way. We can deliver RH and Arhaus quality teak furniture directly to your door without the unnecessary markups and middlemen," says Josh Hotz, managing partner of BTC.

### The Ozarks - Aligning Balinese Artistry with Midwestern Affordability

The mission of Bali Teak Collective is to deliver the unique experience and craftsmanship of Bali direct to your door, eliminating costly and unnecessary middlemen. Sustainability remains a staple. Their sleek yet classic 2024 catalog is designed to demand less from the rainforests without sacrificing style and comfort.
