Food fraud is committed when food is deliberately altered for financial gains with the intention of deceiving consumers or customers. The food standards agency (FSA) specifies two main target testing of food frauds, namely sale of food that is unfit and potentially harmful, and deliberate mis-description of food. In the recent times, food authenticity testing is not just a tool to identify gross substitution such as whisky, horsemeat, or olive oil, it is now quite possible to differentiate between Welsh or Scottish lamb, farmed or wild salmon, and pure or sweetened fruit juice. Food authenticity testing is not only used in identification of gross substitution in whisky, horsemeat, or olive oil but also is used to differentiate between Welsh or Scottish lamb, farmed or wild salmon, and pure or sweetened fruit juice.

authenticity market. However, lack of food control infrastructure in the developing countries and complexity in testing techniques restrain the market growth. On the other hand, rapid growth in international trade and technological advancements such as development of test kits for onsite testing create new opportunities in the coming years.

In 2017, the processed food segment was the leading

revenue contributor to the global food authenticity market. The processed food segment includes numerous processed products, such as infant formula, packaged food, wine, bakery & confectionery, and other processed food products; hence, there are large chances for food frauds.

Based on region, Europe, followed by North America, contributed to the highest market share in 2020, accounting for more than two-fifths of the global food authenticity market, and is expected to maintain its lead position during the forecast period. This is due to surge in food fraud or adulteration activities and sophistication of fraudulent activities along with development of considerable array of methods and techniques to overcome food fraud and enhance consumer protection. However, Asia-Pacific is expected to portray the largest CAGR of 8.9% from 2021 to 2030. This is attributed to several issues related with food e-commerce, particularly in between businesses and consumers, and highly exposed fraud cases in the region.

☐ Archer Daniels Midland Company
□ BASF SE
☐ Cargill, Inc.
□ Danone
☐ DuPont de Nemours, Inc.
☐ General Mills Inc.
☐ Koninklijke DSM N.V.
□ Nestle S.A.
☐ PepsiCo, Inc.
□ Yakult Honsha Co Itd
