

# Dental Imaging Market Size to Reach \$4.23 Billion Globally by 2030: Latest Report by Vantage Market Research

*Dental Imaging Market Size to Grow by \$4.23 Bn | Revenue Forecast, Company Ranking, Competitive Landscape, Growth Factors, And Trends*

WASHINGTON, D.C, DISTRICT OF COLUMBIA, UNITED STATES, May 7, 2024 /EINPresswire.com/ -- The [Global Dental Imaging Market Size & Share](https://www.vantagemarketresearch.com/dental-imaging-market-1571/request-sample) was valued at USD 2.17 Billion in 2022, and it is expected to reach USD 4.23 Billion by 2030, growing at a CAGR of 8.70% during the forecast period (2023-2030).

The dental imaging market has undergone significant growth in recent years, fueled by advancements in technology and a growing awareness of the importance of oral health. Dental imaging involves capturing detailed images of the teeth, gums, and surrounding oral structures to aid in diagnosis, treatment planning, and monitoring of dental conditions. This market is driven by factors such as the increasing prevalence of dental disorders, rising demand for cosmetic dentistry, and the growing adoption of digital imaging techniques.

This report delves into the multifaceted landscape of the Dental Imaging Market, exploring its dynamics, top trends, challenges, opportunities, key report findings, and a focused regional analysis on the burgeoning North America region.

Market Dynamics:

The dynamics of the dental imaging market are influenced by several factors. Technological advancements such as digital imaging systems and 3D imaging have revolutionized the way

dental professionals diagnose and treat oral conditions. Additionally, the growing geriatric population, which is more prone to dental problems, contributes to market growth. Moreover, the increasing adoption of preventive dental care measures and the rise in disposable income levels further propel market expansion.

#### Top Companies in Dental Imaging Market:

- Envista Holdings Corporation (US)
- Planmeca oy (Finland)
- Acteon Group (UK)
- Dentsply Sirona (US)
- Carestream Dental LLC (US)
- Vatech Co. Ltd. (South Korea)
- Owandy Radiology (France)
- Durr Dental SE (Germany)
- Midmark Corporation (US)
- Genoray Co. Ltd. (South Korea)
- Asahi Roentgen Co. Ltd. (Japan)
- 3Shape (Denmark)
- PreXion Inc. (US)
- Ningbo Runyes Medical Instrument Co. Ltd.(China)
- Cefla Medical Equipment (Italy)
- Apteryx Imaging (Canada)
- Yoshida Dental Mfg. Co. Ltd. (Japan)
- Align Technology Inc. (US)
- J. Morita Corp. (Japan)
- Fona Italy (Italy)

#### Top Trends:

In the realm of dental healthcare, advancements in technology have revolutionized diagnostic procedures, with dental imaging emerging as a cornerstone of modern dentistry. The dental imaging market is witnessing an unprecedented surge, fueled by a confluence of factors driving innovation and adoption across the globe. One of the pivotal trends reshaping this landscape is the integration of artificial intelligence (AI) and machine learning algorithms into dental imaging systems. These cutting-edge technologies are enhancing diagnostic accuracy, streamlining workflow efficiency, and enabling personalized treatment plans tailored to individual patient needs.

Moreover, the shift towards digital dentistry is propelling the demand for intraoral scanners and

cone-beam computed tomography (CBCT) systems, facilitating comprehensive 3D imaging for precise treatment planning and implant placement. This transition towards digital solutions not only improves diagnostic capabilities but also promotes eco-friendly practices by reducing the reliance on traditional film-based radiography, thereby minimizing environmental impact. Additionally, the advent of handheld and portable imaging devices is empowering dental practitioners with greater flexibility and mobility, particularly in remote or underserved areas where access to advanced diagnostic tools may be limited.

#### Top Report Findings:

- Market Size and Growth Rate
- Key Market Players and Their Strategies
- Technological Advancements and Innovations
- Regional Analysis and Market Segmentation
- Regulatory Landscape and Compliance Requirements

#### Challenges:

Despite its growth prospects, the dental imaging market faces challenges such as high initial investment costs for advanced imaging equipment, reimbursement issues, and concerns regarding patient privacy and data security. Additionally, the lack of skilled professionals proficient in interpreting imaging results poses a challenge to market expansion.

#### Opportunities:

The dental imaging market presents several opportunities for growth, including the increasing adoption of teledentistry, which allows for remote consultation and diagnosis using digital imaging technology. Moreover, the rising demand for minimally invasive dental procedures and the expanding dental tourism industry create avenues for market players to capitalize on.

#### Key Questions Answered in Dental Imaging Market Report:

- What is the current market size of the dental imaging industry, and what are the projected growth trends?
- Who are the leading players in the market, and what are their key strategies for market expansion?
- What technological advancements are driving innovation in dental imaging systems?
- How does regulatory framework impact the adoption of dental imaging technology?
- What are the key challenges faced by stakeholders in the dental imaging market, and how can they be addressed?

- What are the emerging opportunities in the market, and how can companies capitalize on them?
- Which regions are witnessing the highest demand for dental imaging solutions?
- What are the future prospects and growth potential of the dental imaging market?

#### Regional Analysis:

North America dominates the dental imaging market, attributed to factors such as the presence of well-established healthcare infrastructure, high adoption rates of advanced dental technologies, and increasing healthcare expenditure. The United States accounts for a significant share of the regional market, driven by factors such as the growing prevalence of dental disorders and the availability of reimbursement policies for dental procedures. Moreover, strategic initiatives by market players, such as product launches and collaborations, further contribute to market growth in the region.

#### Global Dental Imaging Market Segmentation:

##### By Product

- Extraoral Imaging Systems
- Intraoral Imaging Systems

##### By Application

- Implantology
- Endodontics
- Oral & Maxillofacial Surgery
- Orthodontics
- Other

##### By End User

- Dental Hospitals & Clinics
- Dental Diagnostic Centers
- Dental Academic & Research Institutes

##### By Region

- North America
- Europe
- Asia Pacific

- Latin America
- Middle East & Africa
