

# ZeroTrusted.ai Ranked #1 Product of the Day and #1 SaaS Product of the Week on ProductHunt.com

ORLANDO, FLORIDA, UNITED STATES, May 7, 2024 /EINPresswire.com/ -- [ZeroTrusted.ai](https://www.zerotrusted.ai), a pioneer in AI security solutions, proudly announces its recent accolades as the #1 Product of the Day and the #1 SaaS Product of the Week on [ProductHunt.com](https://www.producthunt.com). This recognition underscores the company's dedication to excellence and innovation within the rapidly evolving realm of cybersecurity.

Central to ZeroTrusted.ai's success is its groundbreaking LLM Firewall, a revolutionary solution designed to ensure AI Privacy, Reliability, and Governance. Distinguished from conventional firewalls, the LLM Firewall stands uniquely equipped to tackle emerging challenges associated with Large Language Models (LLMs), including the prevention of hallucinations. Leveraging advanced AI technologies, ZeroTrusted.ai delivers unparalleled protection against the risks posed by LLMs, thus safeguarding the integrity and trustworthiness of AI-generated content.

Beyond its state-of-the-art cybersecurity capabilities, ZeroTrusted.ai offers a comprehensive suite of features aimed at addressing critical concerns such as content authenticity. With its built-in plagiarism checker, users can verify the originality of content and mitigate the risks of intellectual property infringement.

Compliance remains a paramount focus for ZeroTrusted.ai, with the platform adhering to stringent standards established by esteemed bodies such as the National Institute of Standards and Technology (NIST) and the General Data Protection Regulation (GDPR). This steadfast

commitment to compliance ensures that user data is handled with the utmost care and in full accordance with pertinent regulations.

"We are honored to receive recognition as the #1 Product of the Day and the #1 SaaS Product of the Week on ProductHunt.com," said Femi Fashakin, CTO at ZeroTrusted.ai. "These accolades reflect our team's relentless pursuit of innovation and our steadfast commitment to delivering cutting-edge cybersecurity solutions that cater to the evolving needs of our clientele."

Moreover, ZeroTrusted.ai is excited to unveil its latest offering, the AI Governance System (AGS). AGS represents a pioneering solution that streamlines governance and management of LLM usage across organizational frameworks, available via SaaS or deployable to client environments.

AGS empowers companies to harness the power of LLMs, such as ChatGPT, Bard, LLaMA, Cohere, Claude, Open LLM, and custom LLMs, among others, in a safe and secure manner. By integrating a zero-trust architecture, AGS not only amplifies internal AI investments but also safeguards sensitive data. Recognizing that employees may already be utilizing AI tools informally, AGS provides the necessary oversight to regulate AI interactions, ensuring that organizations retain full control over data inputs while benefiting from the substantial productivity enhancements that AI offers. AGS also integrates with LangChain, Wordpress, Zapier, and many others.

With AGS, organizations can leverage the immense capabilities of LLMs while upholding the highest standards of privacy, reliability, and accuracy. ZeroTrusted.ai's robust LLM Firewall further fortifies this solution, providing an additional layer of protection.

AGS offers a seamless deployment experience, with options for on-premises deployment or integration via Azure or AWS cloud-containerized virtual machines, enabling swift implementation within minutes.

Contact ZeroTrusted.ai for more information or to request a complimentary demo showcasing the benefits of AGS for their organization by visiting <https://www.ZeroTrusted.ai>.
