

Seay/Felton LLC Trial Lawyers Issue Crucial Pool Safety Tips to Prevent Drowning Incidents in Atlanta

Seay/Felton LLC Trial Lawyers are leading the charge in promoting pool safety and drowning prevention to help safeguard the Atlanta community this summer.

ATLANTA, GA, USA, May 8, 2024

/EINPresswire.com/ -- Seay/Felton LLC Trial Lawyers takes the lead in addressing the preventable yet tragically common occurrence of drowning incidents by raising awareness and providing crucial safety advice to help reduce these fatal and injurious events in the community.

The Centers for Disease Control and Prevention (CDC) reports that approximately 4,000 people die annually in drowning accidents across the U.S., with an additional 8,000 suffering from nonfatal incidents. For

children ages one to four, these accidental drownings represent the leading cause of death. As leading legal advocates in [personal injury](#), Seay/Felton LLC is committed to educating the public on effective drowning prevention strategies and emphasizing the legal avenues available for victims and their families in Atlanta.

Key Safety Measures to Prevent Drowning:

- Avoid Alcohol and Drugs Near Water: Impairment from alcohol or drugs can dramatically increase the risk of drowning. It is crucial to stay alert and sober when around pools, lakes, or participating in boating activities.
- Swimming Education: Learning how to swim is an essential skill that can be lifesaving. Atlanta residents are encouraged to enroll in swimming lessons to improve water competency for both

adults and children.

- Use of Life Vests: When engaging in boating activities, wearing a personal flotation device is vital. Life vests can keep an individual afloat and visible until help arrives, particularly in unexpected overboard situations.

- Secure Pool Areas: Installing a fence with a locked gate around private pools prevents unauthorized access, particularly for small children who can drown in mere inches of water. Never leave children unsupervised in or near any body of water.

Seay/Felton LLC emphasizes that while the physical injuries from drowning can be severe, including potential brain damage and long-term disability from oxygen deprivation, the emotional impact on families is profound. Victims of drowning incidents or their families in Atlanta seeking justice and compensation are advised to consult with a skilled drowning lawyer.
