

Aero Logistic Support Expands Website Offerings to Support a Rising Demand in Commercial Cargo Jet Operations

ASAP Semiconductor introduces an expanded selection of aviation part offerings on its website Aero Logistic Support to support commercial aviation.

ANAHEIM, CALIFORNIA, UNITED STATES, May 8, 2024 /

EINPresswire.com/ -- Aero Logistic Support, an ASAP Semiconductor website specializing in aircraft parts, has expanded its offerings and services with a specific objective of meeting the rising demand in [commercial cargo jet](#) operations and passenger transportation. With a current selection of over 2 billion items ranging from hardware and connectors to avionics and engine parts, Aero Logistic Support serves as a vital resource for various applications and market sectors in the aviation industry.

“

Our expanded offerings are set to meet the needs of commercial transportation and cargo jet operations, ensuring comprehensive solutions for customers worldwide.”

Joe Faruqi

The recent strategic expansions in inventory offerings reflect Aero Logistic Support's commitment to meeting the evolving needs of the industry and the diverse customer base of ASAP Semiconductor. By continuously updating the database with new offerings, including BAC, NAS, and Mil-Spec part numbers, the website aims to serve as a comprehensive single-sourcing platform, offering cost and time savings to its customers, alongside a streamlined fulfillment process.

To enhance the user experience and reduce the time associated with the search process with an expanded selection, Aero Logistic Support has introduced many curated catalogs and product lists on its website. These catalogs organize parts by aviation brands, part type, compatible

aircraft models, and more, facilitating quick and efficient navigation across 2 billion product listings. Additionally, a lookup tool is provided for customers to narrow down exact [PMA parts](#) and ATA items of need using filters, saving valuable time and effort.

In instances where required aviation parts for commercial cargo jet operations and other applications are not listed on Aero Logistic Support, the

team offers a service where they will seek out immediate sourcing solutions that meet budgets and time constraints. Leveraging market intelligence and purchasing power, ASAP Semiconductor specializes in tracking down long lead-time parts and obsolete items, working to ensure that customers on Aero Logistic Support can find all that they need. Expedited shipping and same-day delivery options are also available for customers with urgent requirements, including Aircraft on Ground (AOG) situations.

Quality assurance is paramount at Aero Logistic Support, and all new additions to the website are strictly sourced from [leading aviation manufacturers](#) and undergo rigorous inspections, testing, and document verification processes as necessary. As one of the few independent distributors with a strict NO CHINA SOURCING pledge, ASAP Semiconductor ensures that purchases made on Aero Logistic Support are accompanied by qualifying certifications and manufacturing trace documentation when applicable.

Once a purchase is made on Aero Logistic Support, dedicated account managers at ASAP Semiconductor oversee all aspects of logistics and shipment to ensure swift and efficient fulfillment. With its expanded offerings and services, Aero Logistic Support continues to be a trusted partner for commercial cargo jet operations, providing reliable access to quality parts and unparalleled customer support.
