The benefit of cross-border B2C E-commerce market is that a seller gains the first-mover advantage, which allows them to build strong brand awareness with potential customers before their competitors do. Moreover, cross border ecommerce benefits both sellers and brands as there is access to new markets as no matter how healthy the sales volume are at the moment, cross-border selling can grow by opening online storefront to more untapped markets.

Furthermore, online trade between B2C for imported goods such as spices, crockeries, home décor, and carpets is increasing among consumers. They can easily buy and sell these products on e-commerce websites, thereby consumers can purchase products from across the world sitting at the comfort of their home. In addition, sellers get to conquer new territories by extending access to their products to millions of potential customers who do not have the chance to buy their products. Thus, these are the major cross-border B2C E-Commerce market trends.

The report offers detailed segmentation of the global cross-border B2C e-commerce market

based on offering, payment method, category, end user, and region. The report provides an analysis of each segment and sub-segment with the help of tables and figures. This analysis helps investors, market players, and new entrants in determining the sub-segments to be tapped on to achieve growth in the coming years.

Based on category, the apparel and accessories segment accounted for the highest share in 2021, contributing to around one-fourth of the total share, and is expected to maintain its leadership status during the forecast period. However, the healthcare and nutrition segment is expected to manifest the highest CAGR of 28.8% from 2022 to 2030.

Based on end user, the adults segment held the largest share in 2021, accounting for more than one-third of the market, and is expected to maintain its dominance in terms of revenue by 2031. However, the others segment is estimated to witness the [largest CAGR of 27.9%](#) during the forecast period.
