

# TeamBest Global to Expand U.S. & India Manufacturing Operations From 350,000 to 1 Million Sq. Ft. Over Coming Years

WASHINGTON, DC, USA, May 8, 2024

[/EINPresswire.com/](#) -- Dr. [Krishnan Suthanthiran](#) is the President and Founder of [TeamBest Global Companies](#) (TBG). He has traveled to 20 countries and sells medical products and technologies in many countries around the world. TBG Companies offer products that every hospital/clinic worldwide needs to purchase.

While TBG Companies have manufacturing facilities in a few countries, the U.S., India, and some countries in the Middle East are the best for manufacturing. This is due to the funds and investments made by these governments, availability of labor, and the ability to operate 24/7 manufacturing operations.

As [Best Cure Foundation](#) (BCF) plans to establish 1000+ Medical Centers for Proactive Preventive, Primary, Medical, Dental and Eye Care Wellness Centers and Medical Treatment Facilities globally, there will be a need for a large range of TBG products.

Best Cyclotron Systems (BCS), a TBG company in the U.S., manufactured and shipped five cyclotrons last year. BCS plans to manufacture and ship 30 additional cyclotrons by 2025.

Next month, BCF and TBG Companies are set to ship the first cyclotron to India, which will be manufactured in the United States. This move is part of their commitment to manufacture at least 100 cyclotrons in the U.S. and install them in India alone over the next several years. It's exciting to witness the expansion of TBG Companies' manufacturing capabilities in the U.S. (including Virginia-based Gene Therapy Pharmaceutical), India, and the Middle East. Dr. Suthantiran's companies already own real estate and buildings, which will help in the easy

[www.bestcure.md](http://www.bestcure.md)

expansion of manufacturing for medical devices, high-tech products, and pharmaceuticals in the USA for global supply.
