Figure Eight Federal Unveils Hydra AI: A Paradigm Shift in Global Geospatial Situational Awareness

New Data Milestone Reached as Hydra AI Unlocks the Ability to Process & Visualize Petabytes of Data with Unprecedented Speed & Accuracy

COLUMBUS, D.C, UNITED STATES OF AMERICA, May 8, 2024 /EINPresswire.com/ -- Today, Figure Eight Federal announced the launch of the Hydra AI product portfolio complete with the Hydra Global Location Data Feed, Hydra Analytics Studio, and 18 geospatial models capable of unparalleled geospatial insights. The Hydra Global Location Data Feed is a premier geospatial location data source that provides up to 200 billion geospatial data points daily across more than 170 countries. This innovative feed, integrated with the Hydra Analytics Studio, marks a paradigm shift in the ability to process petabytes of geospatial data with unprecedented speed and accuracy with updates in as little as five-minute intervals.

> Hydra AI empowers our clients to stay ahead of the curve in a fast-evolving world, offering a level of detail and speed that transforms decision-making processes and operational efficiency"
> *Vinay Malkani, Chief Executive Officer of Figure Eight Federal*

The Hydra Global Location Data Feed's extensive data geographical reach and high-frequency updates allow for monitoring and analysis of global patterns and activity trends. This capability is essential for understanding and responding to dynamic global scenarios quickly and accurately leveraging a data-driven approach. "With Hydra AI, we're pushing the boundaries of what's possible in geospatial data processing, enabling rapid visual insights from petabytes of data," said Tim Klawa, Head of Product at Figure Eight Federal. "This means our partners can access and act on global intelligence faster and more cost-effective than ever before," he added.

The advanced capabilities of Hydra AI models are exemplified by their commercial sector applications, such as origin-destination, dwell time, network routing, and flow analysis. In the commercial sector these models have shown immense value in domains such as logistics

enabling companies to optimize operations and enhance service delivery. Hydra Analytics Studio unlocks the ability to reveal unique insights into everything from economic indicators to pandemic impact monitoring around the world.

Figure Eight Federal's new offering exemplifies a significant leap in geospatial intelligence capabilities, providing defense and intelligence partners with a powerful tool to analyze and act upon vast amounts of data swiftly and efficiently. "Hydra AI empowers our clients to stay ahead of the curve in a fast-evolving world, offering a level of detail and speed that transforms decision-making processes and operational efficiency," stated Vinay Malkani, Chief Executive Officer of Figure Eight Federal.

About Figure Eight Federal
Specializing in AI training data, Figure Eight Federal serves the defense and intelligence sectors, bringing innovative technologies and insights that facilitate mission-critical decisions and operational effectiveness. Figure Eight Federal is the leading data enrichment provider for AI applications. A part of the Appen family of companies, they have over 28 years of experience making unstructured data visible, accessible, understandable, linked, trustworthy, interoperable, and secure for machine learning (ML) Initiatives. With thousands of successful data labeling projects, over 10 billion trusted multi-sensor labels and over 360 million multi-language transcriptions with full transparency into quality control metrics, Figure Eight Federal is the trusted AI training data source.
