

# Evolution Welding & Fabrication Announces Launch of New Standard Rail Gooseneck and Bumper Pull Roll-Off Trailers

*Unveiling the Ultimate Reeving System! | Evolution Welding's State-of-the-Art Roll-Off Trailer*

MIAMI, FL, USA, May 10, 2024  
/EINPresswire.com/ -- [Evolution Welding & Fabrication](#), a leader in the fabrication industry, is excited to announce the addition of two new products to its esteemed lineup: the [Standard Rail Gooseneck Roll-Off Trailer](#) and the [Standard Bumper Pull Roll-Off Trailer](#).

These innovative trailers are designed to cater to the diverse needs of modern hauling and transportation, promising unmatched durability, functionality, and performance.

“

Evolution Welding & Fabrication - Rolling Out Quality, One Trailer at a Time!”

*EW*

Introducing the Standard Rail Gooseneck Roll-Off Trailer  
The newly launched Standard Rail Gooseneck Roll-Off Trailer is an exemplary model of engineering excellence, designed to serve the demanding requirements of heavy-duty transportation. Available in 12', 14', 16', and 18' sizes, this trailer is constructed with the highest standards to ensure reliability under the toughest conditions. Equipped

with a TUFF wireless remote, solar panel, LED lights, electric tarp, and single or dual wheels with options for 10k, 12k, and 15k tandem axles, a 10-ton (up to 16' trailers) and 12-ton (18' trailer only) scissor hoist, it represents a significant advancement in trailer technology. The addition of dual hydraulic jacks offers enhanced stability and ease of operation, making it a top choice for professionals seeking efficiency and dependability in their hauling endeavors.

Discover the Standard Bumper Pull Roll-Off Trailer

Evolution Welding & Fabrication's Standard Bumper Pull Roll-Off Trailer sets a new benchmark for strength and versatility in the industry. With options for 12', 14', and 16' sizes, this trailer's main frame is constructed from durable 6" x 2" rectangular steel tubing, ready to withstand the

rigors of continuous use. Including 17.5" 18-ply radial tires on 8-lug solid steel wheels enhances load handling capacities and overall stability. The trailer's design incorporates an electric over hydraulic pump system powered by Interstate's dual deep-cycle marine batteries, ensuring smooth operation. Additional features such as a sealed locking toolbox, a 15' wired remote control, and a 20,000 WARRIOR Severe Duty electric winch system further underscore its utility and safety on the job site.

State-of-the-art Options  
Evolution Welding & Fabrication proudly stands as the sole manufacturer in the market, offering a distinguished array of state-of-the-art options designed to elevate the standard of transportation and hauling. Among these exclusive offerings are:

- Hydraulic Tarp Gantry System
- Backup Camera
- Tire Pressure Monitoring Systems (TPMS)
- Wireless Remote
- Air compressor
- Reeving System
- 13HP Honda Gas Engine

These advancements underline Evolution Welding & Fabrication's commitment to innovation and its dedication to providing high-quality, versatile solutions that meet the industry's evolving needs.

Evolution Welding & Fabrication provides a streamlined process to obtain an instant quote directly through their website. With nationwide shipping options available, clients across the United States can experience the convenience of having these premium trailers delivered directly to their businesses. Evolution Welding & Fabrication is committed to fast turnaround times, ensuring that customers receive their orders promptly and can begin leveraging the

enhanced capabilities of their new trailers without delay.

#### About Evolution Welding & Fabrication

Evolution Welding & Fabrication has established itself as a frontrunner in the roll-off and hook lift containers sector, renowned for its innovative solutions and commitment to quality.
