II. Introducing FMUSER's Arabic Hotel IPTV Solution for Jubail Hotel Industry

A. Main Features

1. Custom interface: With FMUSER's Arabic IPTV Hotel solution, hotels can create welcome pages that display guest information and include a customizable hotel logo. This personalized interface creates a welcoming environment for guests and helps reinforce the hotel's brand identity.
2. Customizable menu interface: The solution allows hotels to easily designate menu icon positions, size, and design. This flexibility allows hotels to align the menu interface with their unique requirements and style, providing a seamless and intuitive user experience for guests.
3. Multi-lingual versions: FMUSER's solution is fully customizable to accommodate different languages, including Arabic and other languages as required. Hotels can provide their guests with IPTV interfaces in their preferred language, ensuring effective communication and a comfortable stay for international visitors.
4. Variety of IPTV functions: FMUSER's Arabic Hotel IPTV Solution offers a wide range of IPTV functions designed to meet the diverse needs of hotel guests. These include:

5. Live TV sources: Guests can enjoy a variety of live TV channels from satellite, UHF, HDMI, and even personal devices such as DVD players. This extensive selection ensures that guests have access to their favorite channels and programs.

6. Video-on-demand: Guests can enjoy on-demand entertainment options in Arabic style, including movies, TV shows, and other multimedia content. This feature enhances the in-room entertainment experience and allows guests to enjoy their preferred content at their convenience.

7. Hotel introduction function: FMUSER's solution enables hotels to showcase their facilities, services, and amenities through a dedicated hotel introduction function. This feature helps hotels promote their unique selling points and enhance guests' understanding of what the hotel has to offer.

8. Food ordering function: The solution includes a convenient food ordering function that allows guests to browse the hotel's menu, place orders, and request room service directly through the IPTV system. This feature streamlines the ordering process, improves guest satisfaction, and increases revenue opportunities for hotels.

9. Hotel services integration function: FMUSER's Arabic Hotel IPTV Solution seamlessly integrates with various hotel services, such as concierge services, spa bookings, and transportation arrangements. Guests can easily access and request these services through the IPTV system, enhancing their overall experience and convenience.

10. Nearby scenic spots introduction: The solution provides information about nearby tourist attractions, scenic spots, and points of interest. Guests can explore the local area and plan their outings directly through
