 Empowering Entertainment On-the-Go:
"We are thrilled to collaborate with Google TV and RayNeo, the Homatics Pocket TV packs a groundbreaking cinematic experience into a portable Google TV player, perfect for on-the-go entertainment. Unleash your entertainment experience with Air Mouse, effortlessly enjoy browser streaming. In addition, Google TV brings together movies, shows, live TV, and more from across your subscriptions, so they're in one place. The Pocket TV is revolutionizing how users enjoy their favorite content." said Jeff Yin, CEO at SEI Robotics.

"The Homatics Pocket TV is a game-changer in redefining XR user experience," said Howie Li, Founder and CEO of RayNeo. " With this innovation, we're not just offering a product; we're crafting an unforgettable entertainment journey for our users. Our mission is clear: to democratize the exhilarating experience of immersive, large-screen XR glasses. This collaboration propels us forward. Together, we're poised to building a top-tier XR glasses

ecosystem and redefine what's possible."

🔲 Google TV: The Ultimate Streaming Experience:
With 700,000+ movies, TV episodes, and more available across 10,000+ apps, Google TV takes streaming to the next level — bringing together favorite entertainment from across apps and organizing it all. Get curated recommendations, use Google's powerful search to find shows across thousands of apps, or browse hundreds of free channels. And with personalized profiles, everyone's experience is customized for them.

Personalized recommendations from Google let users discover new movies and shows based on what they've watched and what interests them, so they can quickly find their next favorite. And that new show friends are raving about? No matter where it's streaming, add it to the watchlist — right from the TV, phone, or browser. And since everyone in the household can build customizable profiles, including dedicated kids profiles, recommendations and watchlists are all personal.

🔲 Voice Control with Google Assistant:
Using voice to search for shows, control the TV, plan the day, and more. Just ask Google Assistant. Pocket TV is the all-in-one entertainment hub, combining the best of Google TV with the convenience of entertainment and an unparalleled viewing experience on the go.

🔲 Enhanced Browsing with Air Mouse:
Furthermore, the Air Mouse feature of the Pocket TV enhances the user experience when streaming content in the browser. Now, users can effortlessly access all favorite content on the web with just a flick of the wrist! Elevate the entertainment experience to the next level with Air Mouse.

🔲 Powerful Performance and 4k UHD resolution:
The Homatics Pocket TV boasts the powerful Amlogic S905Y4 chipset, featuring a quad-core ARM Cortex-A35 architecture, a 12nm process, and a processing power of 16.5K DMIPS. This translates to seamless multitasking and ample storage with 3GB LPDDR4 RAM and 64GB eMMC, expandable via micro SD card up to 2TB. Even without an internet connection, the Pocket TV

plays local video files flawlessly. The chip supports Dolby Vision, HDR10+, HDR 10, HLG HDR, and outputs stunning visuals through an HDMI2.1a 4K UHD video interface. Combined with Dolby Audio and DTS support, the system delivers an unparalleled audiovisual experience.

 Key Features of Homatics Pocket TV:
      » Pocket-sized and lightweight (130*61*23 mm)
      » Google TV offers a personalized entertainment experience.
      » 3GB RAM and 64GB eMMC guarantee seamless multitasking and storage capabilities,

        with micro SD card support up to 2TB.
      » 6500mAh can double as a power bank, providing continuous use for up to 7 hours
        and a standby time of up to 9 days.
      » With strong heat dissipation performance, the device exhibits lower temperatures
        by an average of 2°C compared to other players when playing.
      » Two ports, USB-C for charging and a mini-HDMI port for display output.
      » Features Wi-Fi 6 technology for high bandwidth, low latency, and low power consumption.
      » Air Mouse, with built-in 9-axis IMU sensors, elevates the user experience in browser streaming.

Its substantial 6500mAh can double as a power bank, and the battery capacity ensures extended usage periods of up to 7 hours. Additionally, it supports simultaneous charging and usage, with a standby time of up to 9 days. The device exhibits lower temperatures by an average of 2°C compared to other players on the market when playing, with good heat dissipation performance. The built-in 9-axis IMU sensors enable air mouse functionality, enhancing the user experience in browser streaming, while Wi-Fi 6 technology provides even faster streaming and gaming experiences.

 Pocket TV: All in One, Portable Google TV Player!
Combining style and comfort, the Homatics Pocket TV fits snugly in the hand thanks to its ergonomic design. Its remote features streamlined buttons for effortless control, allowing access to favorites like YouTube and Prime Video with a single click via customizable shortcuts. Preloaded with popular streaming services and a trove of immersive cloud games, this all-in-one Google TV device offers a plug-and-play experience, allowing users to jump straight into the action!

The Pocket TV will available on the RayNeo Amazon US store. https://bit.ly/3WrWvq2
