

Bitget Wallet Unveils GetDrop: An Exclusive Airdrop Platform for High-quality Projects

VICTORIA, SEYCHELLES, May 13, 2024 /EINPresswire.com/ -- Bitget [Wallet](#), a prominent Web3 wallet, recently unveiled its new airdrop platform, GetDrop. This platform is designed to offer exclusive airdrop campaigns tailored for high-quality projects. Bitget Wallet collaborates with both potential and popular project teams in the industry to provide airdrop rewards to active wallet users, thereby aiding in the growth of project data and enhancing brand influence.

GetDrop is a premier launch featured in the Bitget Wallet Earning Center. It is a newly initiated incentive program for Bitget Wallet's users and BWB points/BWB token holders. It serves as an exceptional gateway for Bitget Wallet's ecosystem partner projects to connect with and engage an active, high-quality Bitget Wallet user base. Each campaign is orchestrated to cater to the specific needs of project teams, highlighting their unique product features and key objectives.

The initial campaign of the GetDrop platform focuses on meme coins, in collaboration with nine meme coin projects: MANEKI, ROOST, QUACK, MOEW, FOMO, MUMU, EPIK, APU, and CATGPT, offering a total reward pool of \$130,000 worth of tokens. Users can participate by signing up at Bitget Wallet's Earning Center and completing tasks such as social media interactions and Swap transactions. Additionally, Bitget Wallet is planning its second phase of GetDrop centered around the recent hot topic of SocialFi, launching an exclusive UXLINK airdrop campaign. This is based on the largest Web3 social infrastructure project within the Telegram ecosystem, where users can share in 100,000 rare UXLINK NFTs upon completing tasks.

In the Bitget Wallet Earning Center, there are multiple airdrop sections, including the Web3 exploration incentive platform Task2Get, high-quality project subscription platform Launchpad, new coin fair distribution platform Fair Launchpool, and the social earning platform Invite2Get. These aim to provide users with rewarding and diverse earning and airdrop activities. Not only does Bitget Wallet offer high-quality trading services for users to potentially profit in the market,

but it also continuously plans and carries out varied and rewarding activities, allowing users to potentially earn while exploring and experiencing various mainnet ecosystems.

Unlike other sections, GetDrop is a new incentive plan mainly aimed at active users in the Bitget Wallet community and BWB and BWB Points holders. The GetDrop section will launch highly customized airdrop campaigns in conjunction with high-quality ecosystem projects, serving as an excellent bridge linking Bitget Wallet's quality ecosystem partner projects with active community users and BWB holders.

Since its inception in 2018, Bitget Wallet has won the trust of over 20 million users worldwide, becoming one of the world's top ten most popular crypto wallets. Currently, Bitget Wallet supports over 100 mainnets and hundreds of EVM-compatible chains, providing comprehensive functions like a wallet, Swap, intelligent market data, Launchpad, inscription center, and token earning center. This comprehensive support enables users to complete all on-chain interactions within the wallet, bringing sustained user participation and active interaction to ecosystem projects.

GetDrop is committed to continued and extensive collaboration with industry-leading partners. This initiative fosters user-project interactions, enhances project visibility, attracts active user participation, and partners with projects to deliver more benefits to users, aiding them in navigating the vibrant Web3 landscape.

About Bitget Wallet

Bitget Wallet is Asia's largest and a leading global Web3 wallet with over 20 million users worldwide. It offers a comprehensive range of features, including asset management, intelligent market data, swap trading, launchpad, inscribing, and DApp browsing. Currently, it supports more than 100 major blockchains, hundreds of EVM-compatible chains, and over 250,000 cryptocurrencies. Bitget Wallet enhances liquidity by aggregating it across hundreds of top DEXs and cross-chain bridges, facilitating seamless trading on nearly 50 blockchains.
