

Garage Capital Named Canada's Top Venture Capital Firm for Picking Winners

– An extensive analysis has revealed Garage Capital as the preeminent venture capital firm in Canada for identifying and investing in promising startups.

TORONTO, ONTARIO, CANADA, May 14, 2024 /EINPresswire.com/ -- An extensive analysis has revealed [Garage Capital](#) as the preeminent venture capital firm in Canada for identifying and investing in promising startups. This accolade is based on benchmarks created from over 15,000 scaling

technology companies and an examination of the leading investors in over 600 Canadian ones. It was judged against other early stage investors headquartered in Canada.

Garage Capital stands out for its high average Scaleup Ranking where its investee companies score higher than 58.6% of scaling companies. Its scaling investees represent 16.5% of its portfolio showing an excellent ability at picking winners. This surpasses other notable firms in the evaluation, positioning Garage Capital at the forefront of early-stage venture capital investing in Canada.

According to [Charles Plant](#), the Founder of the Narwhal Project, "Firms will eventually be judged on how well they perform relative to other companies in their industry. Understanding how firms compare against others using benchmarks such as the Scaleup Ranking enables a firm to better understand what it needs to do to be able to succeed. Understanding how investors rank enables firms to target their next investors with precision."

About the Narwhal Project

The Narwhal Project helps technology founders figure out how to scale efficiently. Working at the intersection of strategy, marketing and finance we provide companies with the analytical tools to make strategic decisions that will fuel efficient growth. The Narwhal Project was also established to research the underlying factors essential to creating world-class technology companies. Our objective is to understand how companies can accelerate their growth and how governments, companies, and academia can identify and adopt best practices in technology commercialization.
