Recap into the year 2023!

Their exceptional care garnered them with countless happy clients over these years. During the past year also, they have achieved incredible accomplishments and they take privilege to share a few of them with you.

In 2023, FFC established a network of practitioners who are passionate about supporting families as they grow. Not only do they have an ongoing working relationship with the Midwives of York Region, but last year they also started working hand in hand with renowned speech pathologists, lactation consultants and dentists who are equally passionate about supporting our community’s little members and their families during their initial months of life.

The FFC Team thoroughly enjoys meeting and working with other health care professionals and support workers in the community and are always looking for those they can refer to for collaborative care.

In 2023, Dr. Danielle Warner reached a significant milestone in her life, by publishing her first book, *The Vitality Shift*, as an offering to her practice members. Copies of the books are available for purchase at the clinic or through the [JotForm app](#).
