OverPower Marketing Awards Fall 2024 Scholarship to Chrystal Thomas, Magna Cum Laude Student at Pensacola State College

PENSACOLA, FLORIDA, USA, May 16, 2024 /EINPresswire.com/ -- OverPower Marketing, a premier [digital marketing agency in Pensacola](#), is proud to announce Chrystal Thomas as the recipient of the Fall 2024 OverPower Marketing Scholarship. This scholarship recognizes outstanding students who demonstrate academic excellence, perseverance, and a passion for their chosen field of study. Chrystal, who is currently pursuing her Associate in Arts Degree in Cyber Forensics at Pensacola State College, exemplifies these qualities and more.

Chrystal Thomas, a 38-year-old single mother of three teenagers, has shown remarkable dedication and resilience in her educational journey. Despite numerous life challenges, she has excelled academically, graduating Magna Cum Laude with her AA degree in Criminal Justice and continuing her education in Cyber Forensics.

In her scholarship essay, Chrystal shared her inspiring story of balancing full-time work as a correctional officer with her studies and family responsibilities. She highlighted her motivation to succeed not only for herself but also to set an example for her children, two of whom are also students at Pensacola State College. Her commitment to education and her determination to overcome obstacles are truly commendable.

"I have overcome many life struggles to get to where I am now," Chrystal wrote. "I put off college

for many years while trying to raise my kids and spend as much time with them as I could, while also working two jobs at one time. If I were awarded a scholarship, it would really help me financially while trying to finish my degree and show my children that anything can be accomplished if you apply yourself and push yourself."

Chrystal's dedication to her studies and her aspirations in Cyber Forensics reflect the values that OverPower Marketing aims to support through this scholarship. Her long-term goals include working with a local law enforcement agency and eventually joining a remote Cyber Forensics company, allowing her to travel and further her professional development.
