The collaboration between the two highlights FincenFetch's dedication to revolutionizing BOI filing for law firms and their clients under the FinCEN regulations passed earlier this year.

"Our partnership with Pearce Law Group and other high-

In addition, the AI-driven software provides an accurate and highly-secure experience that allows firms to file BOI reports in minutes and not hours.

"Our team spent years preparing for the new regulations," Wismer said. "Our software's scalability and automation easily adapts to meet the rigorous demands of the CTA. Our goal is to help firms get their clients compliant, generate new revenue and allow them to focus on their core business."

FinCEN rules and regulations continue to change and the need for accurate and timely beneficial ownership reporting is critical to avoid fines and penalties. FincenFetch allows firms to help their clients get and stay compliant with ease while adding a valued service to their portfolio.
