MAKI PRECISION MACHINING, LLC. Continues To Uphold High Standards With Compliance To ISO 9001 Certification By DNV
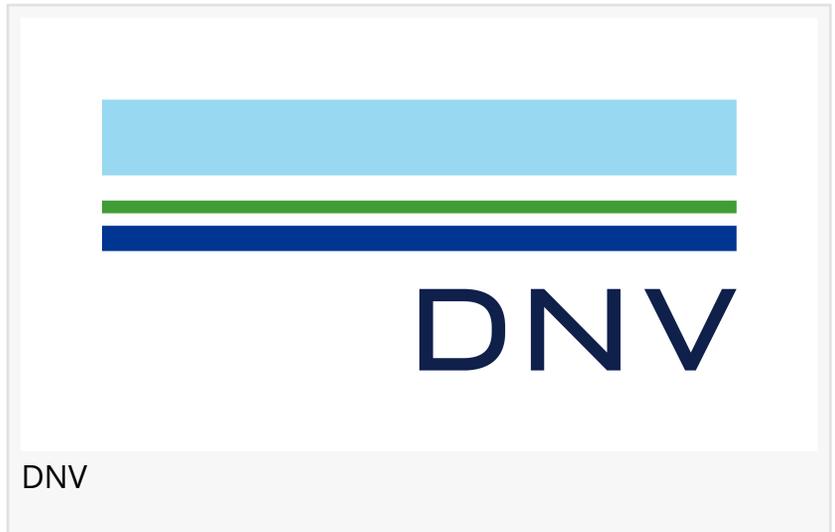

KATY, TEXAS, USA, May 21, 2024 /EINPresswire.com/ -- Maki Precision Machining, LLC., a provider of rapid prototyping, multi-axis CNC, precision turning, assembly, and finishing for the aerospace, automotive, commercial, firearm, medical device, and sporting goods industries, has achieved ISO 9001:2015 certification. This milestone reflects the organization's enduring commitment to customer success, quality, and value at every stage.

DNV

The certification is valid for three years and is provided by DNV.

ISO 9001 is an international standard for effective Quality Management Systems (QMS). It is adopted by millions of companies and organizations in over 170 countries, emphasizing the consistent delivery of high-quality products to customers.

> Achieving ISO 9001 certification underscores our rigorous quality control processes, ensuring that every component meets the highest industry standards."
>
> *Austin Whitmer, Business Development Manager*

"Maki Precision Machining is committed to our customers' success," says Austin Whitmer, Business Development Manager at Maki Precision Machining LLC. "Achieving ISO 9001 certification underscores our rigorous quality control processes, ensuring that every component meets the highest industry standards, and highlights our dedication to continuously improving operational excellence company-wide."
